STAFF MEMO

Re: Happy Jack Rd./F.E. Warren AFB Enhanced Use Lease Infrastructure Project

From: Robert Briggs, AICP, Director of Planning and Development

To: Mayor and City Council

Date: February 7, 2018

Recommendation:

Staff recommends amending by substitution to adopt the attached amended grant resolutions.

Background:

The Happy Jack Rd./F.E. Warren AFB Enhanced Use Lease Infrastructure Project grant application and loan resolutions first appeared before the City Council on January 22, 2018 and were referred to the Finance Committee on February 5, 2018. The Finance Committee moved to recommend adoption of both resolutions.

Staff is recommending adoption of the attached resolutions by substitution. They are nearly identical in those reviewed by the Finance Committee. They make only two language changes to make it clear that the grant will include some public roadway improvements, as well as the water and sewer main construction. City staff believes these changes better define the scope of the project, and provide for best utilization of the grant and loan dollars if awarded.

WHEREAS, this infrastructure project proposes preparing a 75.3 acre parcel with necessary water and sewer public infrastructure and roadway improvements associated with public right-of-way to allow for the construction of as much as \$95 million in private residential and commercial construction, which is estimated will generate \$294,000.00 in additional real estate taxes and \$4,200,000.00 in sales tax per year; and

WHEREAS, the specific goals and measures of success of this project are:

- Construction of 12,000 linear feet of water mains.
- Construction of 11,400 linear feet of sewer mains.
- Construction of roadway improvements associated with public right-of-way.
