
MEMORANDUM

TO: Mayor Marian Orr, and City Council
FROM: TJ Barttelbort, Purchasing Manager 
DATE: September 12, 2019
SUBJECT: Consideration of Bid #E-1-20 for furnishing Eight (8) New Four-Door 2020 Model Utility (SUV) Police Interceptors, for the City of Cheyenne, Cheyenne Police Department

Two (2) bidders responded to this bid, and the bid tabulation is attached.

A Mandatory Pre-Bid Meeting was held, and Spradley-Barr, Wireless Advanced Communications/Bearcom, and Recreational Electric were in attendance.

The bids were received from Fremont Motors, Casper, Wyoming (Submitted a 'NO BID'), and Spradley Barr Motors, Cheyenne, Wyoming. Spradley Barr Motors submitted their bid with two (2) separate body upfitter options, Wireless Advanced Communications/Bearcom (\$455,715.00) and Recreational Electric (\$463,379.00).

Upon further review of the bid, it was identified that the model of light bar submitted by the low bidder body upfitter, Wireless Advanced Communications/Bearcom, was a linear style light bar. During the mandatory pre-bid meeting, the brands and manufacturers of add on equipment to be accepted was increased to allow for fair and equitable bid submissions by different body upfitters. By allowing for upfitters to submit alternate brands, the light bar that was originally specified was opened to submission by alternate brands. The original bid specification called for a 51" Federal Signal, Police Valor series light bar. The Police Valor light bar is a low profile, non-linear 'V-Shape' style light bar. The unique 'V-Shape' offers far more light output at critical intersection angles than a typical linear light bar. (Representative depictions of lightbar styles are included below). Upon review of the linear style light bar and non-linear style light bar, The Cheyenne Police Department has requested an upgrade to the lightbar to ensure officer safety and vehicle visibility.

The City of Cheyenne contacted the low bidder body upfitter, Wireless Advanced Communications/Bearcom, to request a price for an upgrade to the Police Valor 'V-Shape' Light Bar. Wireless Advanced Communications/Bearcom provided a price of \$2,737.00/lightbar. The original price submission for the non 'V-Shape' linear lightbar was \$1,991.00/lightbar.

The increase in cost to upgrade to the 'V-Shape' lightbar, brings the revised bid price from \$455,715.00 to \$461,683.00. This cost is \$1,696.00 less than the next responsive bid, therefore the recommendation is to accept the cost for the upgraded lightbar.

The bids were reviewed by Jared Keslar (Cheyenne Police Department) and Bryan Bell (Fleet Maintenance). Their recommendation is to accept the bid from Spradley Barr Motors, with Wireless Advanced Communications/Bearcom, for the purchase of the Eight (8) New Four-Door 2020 Model Utility (SUV) Police Interceptors, for a bid award amount of \$461,683.00.

Representative Depictions of Lightbar Styles

Linear Style

Non-Linear 'V-Shape'
