STATE REASON FOR SOLE SOURCE PURCHASE: Cheyenne Fire and Rescue HazMat/RERT #7 HazMat Team currently possesses two MSA G1 SCBAs purchased by the Wyoming Hospital Preparedness Program in 2017. To Whom It May Concern:

This letter confirms that LN Curtis & Sons is an authorized distributor of MSA SCBA and SCBA accessories for the Municipal Fire Service Market for the entire State of Wyoming.

By way of background, in the fire service / first responder markets, MSA imposes specific requirements upon our distributors, which can result in a small number of distributors authorized to call upon a particular region. We impose these requirements because the equipment we manufacture and sell requires the involvement of partners with special knowledge, training and experience. Accordingly MSA's distributors are obligated to acquire and maintain extensive knowledge, training, and experience necessary to properly educate, assist and service our end user customers before, during and after the sale. MSA's fire service / first responder distributor qualification requirements are likewise intended to ensure the highest possible end user customer experience.

If you desire additional information about MSA, its product lines, or channel partners, please do not hesitate to contact me. Thank you for your interest in our products.

Sincerely,
