Cheyenne Police Department Memorandum
Protecting the Legend

TO: Lt. Rob Dafoe

FROM: Lewis Simpson, Equipment Quartermaster

SUBJECT: Sole Source requirement for Motorola Radios

DATE: April 13, 2018 *LS*

.....

The Cheyenne Police Department radio inventory of over 375 units is currently 100% Motorola and therefore to maintain continuity and officer safety, Motorola must continue to be the sole source for all radios.

The Cheyenne Police Department currently uses as its primary radio communication system, the WyoLink Trunked Radio System (WyoLink) as maintained by the State of Wyoming. While other manufacturer radios have been tested, and certified for use on the WyoLink system, the Cheyenne Police Department has determined that the Motorola radio equipment certified for use on the WyoLink system provides the best operational reliability to meet the departments mission to provide the best public safety to the community and has relied on that dependability for many years.
