ORDINANCE – 3rd READING – Appropriating moneys for the City of Cheyenne, Wyoming, for the various purposes in conducting the municipal government of said City and fixing the amount of general and special taxes as part of the revenue required to meet the said appropriation, all for the Fiscal Year beginning July 1, 2018 and ending June 30, 2019. Stephanie Lowe, President, Cheyenne Public Employees Association (CPEA), spoke in support of the proposed 3% allocation affiliated with implementation of a merit based pay plan, citing the need for competitive wages, and commented in support of services provided by City employees. She noted CPEA will be working with the administration on implementing the pay plan. Susana Montana also spoke in favor of being able to reward employees through a merit increase program and encouraged support for the 3% evaluation plan. Reporting for Committee of the Whole, Dr. Rinne moved to approve on third and final reading, seconded by Mr. White. Dr. Rinne moved to amend by initiating a 3% merit-based pay increase for all non-uniformed employees allocated only after adoption and implementation of a merit-based pay increase plan to be taken from individual funds as appropriate from the general fund, seconded by Mr. Luna. Dr. Rinne moved to amend the amendment by adding the following language after the word “plan” in the 3rd line: “as approved by the Governing Body”, seconded by Mr. Case. Upon inquiry, Sylvia Hackl, City Attorney, confirmed no merit pay raises will be given until the pay for performance plan is approved by the governing body. Discussion included: Time frame in which the Mayor anticipates submitting the plan to the governing body; patterning the plan upon the recent plan implemented by the Board of Public Utilities (BOPU) and sharing of resources on the performance plan between BOPU and the City; concern with approving funding for the plan prior to approval of the plan by the governing body; purpose of the plan to provide an evaluation system not just a monetary increase system, and implementation of the plan by December 31, 2018. During discussion, Dr. Rinne raised a point of order that comments should be limited to the motion to amend the amendment on the floor with Mayor Orr ruling comments could continue. During discussion, Darrin Hass, Deputy Director, Human Resources, stated compilation and implementation of the plan is on an aggressive schedule with an anticipated implementation date of December 31, 2018. Motion to amend the amendment carried. Voting “yes” – all members of the governing body. Comment of clarification was made that not all employees may receive a 3% increase under the new plan. Motion to amend, as amended, carried. Voting “yes” – all members of the governing body. Dr. Rinne moved to amend by initiating the on-going maintenance of the downtown trees in the amount of \$110,000.00 which includes one full-time arborist and a portion of a 45-foot aerial lift truck to be taken from 5th penny sales tax fund overage collections, seconded by Mr. Laybourn. Discussion topics included: Concern with paying a salary position from 5th penny funds; new arborist position and affiliation with the ordinance amending the tree chapter in City Code also on the current agenda (Item #13), and removal of the position in the past budget. Upon inquiry, Ron Downey, City Treasurer, stated 5th penny funds are an addition to the general fund and provided a brief explanation of future funding. Motion to amend carried. Voting “yes” – Mr. Case, Mr. Johnson, Mr. Laybourn, Mr. Luna, Mr. Roybal, Mr. Shanor and Mayor Orr. Voting “no” – Mr. Cook, Dr. Rinne and Mr. Shanor. Dr. Rinne moved to amend by increasing the full-time employee cap number from 568 to 570 to include an additional arborist for the Forestry Division and a senior heavy equipment operator for the Compost Division, seconded by Mr. Shanor. Motion to amend carried. Voting “yes” – all members of the governing body. Discussion followed and included the following topics: Supplemental department budget requests; deferred maintenance needs;

funding amount of \$250,000.00 contained in the proposed Public Works budget for on-going maintenance needs, and keeping the former “model” of a budget line item for capital improvements and deferred maintenance in the general fund. During discussion and upon inquiry, Vicki Nemecek, Director of Public Works, confirmed solid waste department employees were included in the 570 employee count; Mr. Downey advised any monies left in the current capital improvements fund budget would be transferred to reserves at the end of the current fiscal year but could be reallocated through re-appropriation, and Mayor Orr provided information generally on the budget and proposed funding of \$250,000.00 as a start in addressing maintenance needs. Mr. Shanor moved to amend by moving \$250,000.00 from the facilities maintenance line item contained in the proposed Public Works budget; re-create the capital improvement line item for the FY2019 budget and carry over any remaining balance in that line item from this fiscal year into next year’s budget, and include the \$250,000.00 in the FY2019 capital improvement line item for use toward deferred maintenance and identified needs affiliated with departmental FY2019 supplemental budget requests, seconded by Mr. Johnson. Mayor Orr advised the funding was placed in the Public Works budget as that department oversees facilities, which has the greatest maintenance needs. Discussion included: Average amount of funding in the capital improvement line item; retaining \$78,000 in the Public Works facilities budget for payment of annual maintenance requirements and other necessities for facilities; remaining funds in the capital improvement line item for the current budget; need for the state legislature to reform the tax system to allow for more stable funding sources for municipalities to address infrastructure needs; prioritizing maintenance needs for use of the funding; current Capital Improvement Plan (CIP), and providing the Mayor and department directors flexibility in requesting real-time recommendations for use of the money as opposed to “locking into” the CIP. During discussion and upon inquiry, Ms. Nemecek advised the \$250,000.00 was an additional request to the budget and that \$78,000.00 should remain in the facilities maintenance line item to pay for annual maintenance responsibilities and other facilities maintenance necessities. Mr. Downey provided information on the amount of funding in the current budget for capital improvements (\$820,000.00) that would go into reserves but could be re-appropriated and the amount of \$328,765.00 for capital improvements in the proposed FY2019 budget. Mayor Orr commented on the lack of adoption of the CIP by the governing body. Motion to amend carried.
