

RESOLUTION NO. _____

ENTITLED: "A RESOLUTION ACCEPTING A GRANT OF \$112,500.00 FROM THE RECREATION MILL BOARD FOR THE RENOVATION OF THE JAYCEE PARK TENNIS COURTS."

WHEREAS, the Cheyenne Community Recreation District receives funds from the recreation mill levy pursuant to § W.S. 18-9-201(b); and

WHEREAS, up to 15% of the funds are available competitively to governmental recreation organizations for public recreation projects; and

WHEREAS, the City of Cheyenne has applied for and been awarded a grant of \$112,500.00 from the Recreation Mill Board for the Jaycee Park Tennis Courts, ("Courts"); and

WHEREAS, the two existing "Courts" have a crumbling base, cracks in the playing surface and uneven areas that collect puddles of water; and

WHEREAS, an in-kind match estimated at \$5,625.00 will come from the City's administration of the project; and

WHEREAS, the renovation of the "Courts" will begin in the fall of 2019, weather permitting.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, that the Governing Body of the City of Cheyenne, Wyoming is in support of this project and of the acceptance of this grant; and that the Mayor is authorized to execute a grant agreement to receive this grant funding for Jaycee Park Tennis Courts Project.

PRESENTED, READ, AND ADOPTED THIS _____ DAY OF SEPTEMBER 2019.

Marian J. Orr, Mayor

ATTEST:

Kristina F. Jones, City Clerk

Jaycee Park Tennis Courts Restoration

Recreation Mill Grant

Need

The city of Cheyenne has just twelve regulation-size tennis courts. Two of these tennis courts are in Jaycee Park and are in is very poor condition, with irreparable crumbling court base, many fissures throughout the play surface, and ponding water. In addition, the chain-link fence around the tennis courts has become damaged and stretched out over the years, with the bottom fence fabric no longer securely connecting with the ground. These conditions make play on these courts less than a positive experience.

With the current condition of these highly-visible tennis courts, serious tennis players will not use them. Further, the cracks and dips on the surface of the courts create a potential tripping hazard. We would like to make the repairs to this unusable tennis courts to put them back into use.

The fenced tennis courts in Jaycee Park, are in an older neighborhood with smaller, quaint homes. The neighborhood park is 2.2 acres in size. It offers large shade trees, a playground, a basketball court, a drinking fountain and irrigated grass. It has a very pleasant atmosphere.

Resolution to Need

We propose renovating the two tennis courts at Jaycee Park, in the Avenues neighborhood of Cheyenne. The court resurfacing and the associated repairs will make these tennis courts useable again.

The proposed project includes removing the chain-link fence and replacing it with new fence. The surface of the tennis courts is to be scraped, with lose surface material removed and a paving fabric is to be applied over the entire court. An overlay of two inches of hot-mix asphalt will then follow. One coat of RSS acrylic resurfacer will then be applied, followed by two coats of RSS Acrylic Color System. The court layout will be marked, and a two-inch white textured line will be painted on the court. New tennis net posts will be installed, and new nets will be hung. Minor traffic control will be provided.

Project equipment and cost

The estimated cost for the tennis courts includes the clean-up and removal of materials from the two existing tennis courts, new tennis court materials and installation, new tennis court posts and nets and installation, and the application of a white textured painted line. Minor traffic control is also included. A price quote of \$112,500, from "renner" follows:

\$ 52,000	Tennis Court Paving
\$ 10,200	Surfacing
\$ 9,000	Fence
\$ 41,300	Installation
\$ 5,625	Administration
\$118,125	Total

We have been awarded \$112,500 from the Cheyenne Community Public Recreation District Board (Rec. Board) for this project. The City will be contributing \$5,625 in the form of in-kind service to this project, via project administration.
