

RESOLUTION NO. _____

REVIEWED

By Alessandra at 10:30 am, Feb 04, 2020

ENTITLED: "A RESOLUTION AUTHORIZING THE MAYOR AND THE CITY CLERK TO SIGN A FINAL PLAT FOR BUFFALO RIDGE ESTATES, 11TH FILING, A REPLAT OF LOT 15, BLOCK 21, BUFFALO RIDGE ESTATES, CHEYENNE, LARAMIE COUNTY, WYOMING (LOCATED SOUTHEAST OF THE INTERSECTION OF HILLTOP AVENUE AND BLUFF PLACE)."

WHEREAS, Joy L. Torelli Trust dated November 14, 2000, has subdivided said land in accordance with the statutes in such cases made and provided; and

WHEREAS, Joy L. Torelli Trust dated November 14, 2000, the owner of the above described land, has caused a subdivision plat of said land to be made, acknowledged, and certified, particularly describing the lots, block, easements, and right-of-way; and

WHEREAS, the above described subdivision plat has been presented to the City of Cheyenne Planning Commission for consideration; the Planning Commission has recommended that said plat be approved by the governing body; and the plat has been duly executed by the Development Office; and

NOW, THEREFORE BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, THAT the subdivision described as Buffalo Ridge Estates, 11th Filing, Cheyenne, Wyoming, be and the same hereby is approved and confirmed as presented, and that the Mayor and the City Clerk be and are hereby authorized, empowered, and directed to execute said plat, when Community Facility Fees have been paid in full.

PRESENTED, READ AND ADOPTED THIS _____ DAY OF _____, 2020.

MARIAN J. ORR, MAYOR

(SEAL)
ATTEST:

KRISTINA F. JONES, CITY CLERK

STAFF REPORT - SUMMATION

Buffalo Ridge Estates, 11th Filing **Expedited Preliminary Plat**

CASE NUMBER(s): UDC-20-00021

SUBDIVISION CODE: BFR 11

PREPARED BY: Seth Lloyd

MEETING DATES:

Planning Commission:	February 3, 2019
City Council:	February 10, 2020
Public Service Committee:	February 19, 2020
City Council:	February 24, 2020

REQUIRED DOCUMENTS SUBMISSION: The following required documents have been submitted and reviewed by staff:

- Master Application; Preliminary Plat Map; Final Plat Map; Drainage Worksheet; Traffic Worksheet
- Revised Final Plat Map – submitted 1/27/2020 (submitted to make technical corrections)

FEES DUE AT SIGNING OF THE PLAT: \$350.00

PLANNING COMMISSION RECOMMENDATION: At their regular meeting on February 3, 2020, the City of Cheyenne Planning Commission approved the expedited Preliminary Plat, advancing the Final Plat to the Governing Body, by a vote of 4-0.

STAFF RECOMMENDATION: Staff recommends approval of the expedited Preliminary Plat advancing the Final Plat to the Governing Body.

STAFF REPORT

Buffalo Ridge Estates, 11th Filing **Expedited Preliminary Plat**

CASE NUMBER(s): UDC-20-00021 **SUBDIVISION CODE:** BFR 11
PREPARED BY: Seth Lloyd
PUBLIC HEARING: February 3, 2019 (Planning Commission)

OWNER(s): Joy L. Torelli Trust (307) 637-4243
5319 Hilltop Avenue
Cheyenne, WY 82009

AGENT: Casey Palma (307) 634-7273
Steil Surveying and Development Services
1102 W. 19th Street
Cheyenne, WY 82001

PROJECT: Buffalo Ridge Estates, 11th Filing Preliminary and Final Plat (expedited plat)

WORK DESCRIPTIONS: A request to replat Lot 15, Block 21, Buffalo Ridge Estates, Cheyenne, Laramie County, Wyoming (located southeast of the intersection of Hilltop Avenue and Bluff Place).

LOCATION:

1. Legal Description: Lot 15, Block 21, Buffalo Ridge Estates, Cheyenne.
2. General Location: southeast of the intersection of Hilltop Avenue and Bluff Place
3. Address: 5319 Hilltop

SIZE: 24,315 square feet

CURRENT ZONING: MR Medium-density Residential
PROPOSED ZONING: MR Medium-density Residential
EXISTING LAND USE: One single-family home
PROPOSED LAND USE: Three single-family homes

SURROUNDING LAND USES:

SURROUNDING	LAND USE(s)	ZONING	ANNEXATION STATUS
North	Single-family Residential	MR	City
South	Single-family Residential	MR	City
East	Single-family Residential	MR	City
West	Single-family Residential	MR	City

EXPEDITED REVIEW:

This plat is being pursued as an expedited application. An expedited review process is a concurrent preliminary and final plat. A project may be eligible for an expedited review when the proposal contains no significant planning, design or engineering issues. In other words, proposals that meet all applicable regulations and generally meet the review criteria for preliminary and final plat may be eligible for the concurrent preliminary and final plat process.

Due to meeting the expedited plat criteria set forth in Section 2.1.2.c(3) of the Cheyenne Unified Development Code, Staff recommends allowing the plat to proceed as an expedited application.

EXECUTIVE SUMMARY:

This plat proposes replatting one large single-family home lot into 3 smaller lots intended for single-family home development. The property is currently occupied by a single-family home on the eastern portion of the land. The proposed platting action would allow the existing home and all its associated utility connections to remain on one of the 3 lots.

PlanCheyenne is supportive of residential development at this location. While the Comprehensive Plan encourages infill development and a mix of housing types, it is not the intent of the Comprehensive Plan to change existing stable neighborhoods. The proposed plat is able to meet the intent and applicability of the current MR zoning, and all lots are buildable lots in this zone district.

The proposed Lots 2 and 3 are significantly smaller than existing surrounding lots in terms of square footage. However, both of these lots have frontage similar to surrounding lots and would be required to have a front setback similar to that which already exists in the neighborhood. With similar front setbacks and lot widths, homes constructed on these parcels can be similar in form to the existing homes and therefore, this proposed platting action would not have an undue influence on potential redevelopment in the area.

Due to meeting the review criteria set forth in Section 2.1.2.d and 2.1.3.d of the Cheyenne Unified Development Code, staff recommends the Planning Commission approves this expedited plat, advancing the final plat to the Governing Body.

Source: Development Office

Photograph #2 – 5319 Hilltop from the intersection of Hilltop Avenue and the alley between Bluff Place and Douglas Street, facing northeast.

Source: Development Office

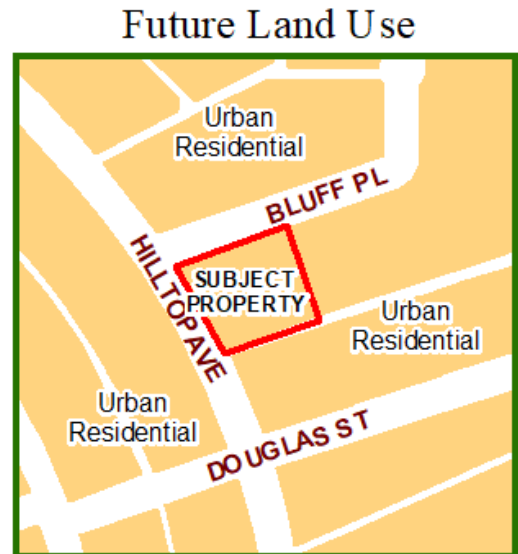

PRELIMINARY PLAT DATA: In reviewing, providing comments, and making recommendations and decisions on a proposed preliminary plat, the Staff, Planning Commission and City Council shall use the following 8 criteria, as found in Section 2.1.2.d:

1. PLANCHEYENNE - *The application is in accordance with the development policies and physical patterns identified in PlanCheyenne.*

PlanCheyenne is supportive of this proposed plat.

PlanCheyenne has multiple policies which encourage infill development which maximizes the use of infrastructure investments. The property is within the Urban Service Boundary and has access to all utilities.

This property, and all the surrounding area, is designated as Urban Residential by the Future Land Use Map in PlanCheyenne. This future land use designation is intended to develop with a variety of residential types and densities; however, proposed development should take into consideration adjacent development, and the Comprehensive Plan does state that it is not the intent of the Plan to change existing stable neighborhoods. While the plat does propose lots that are smaller than those in the surrounding neighborhood, the plat is generally proposing lots of similar widths and the applicant has indicated Lots 2 and 3 would likely develop with single-family homes, matching the pattern already found in the neighborhood.

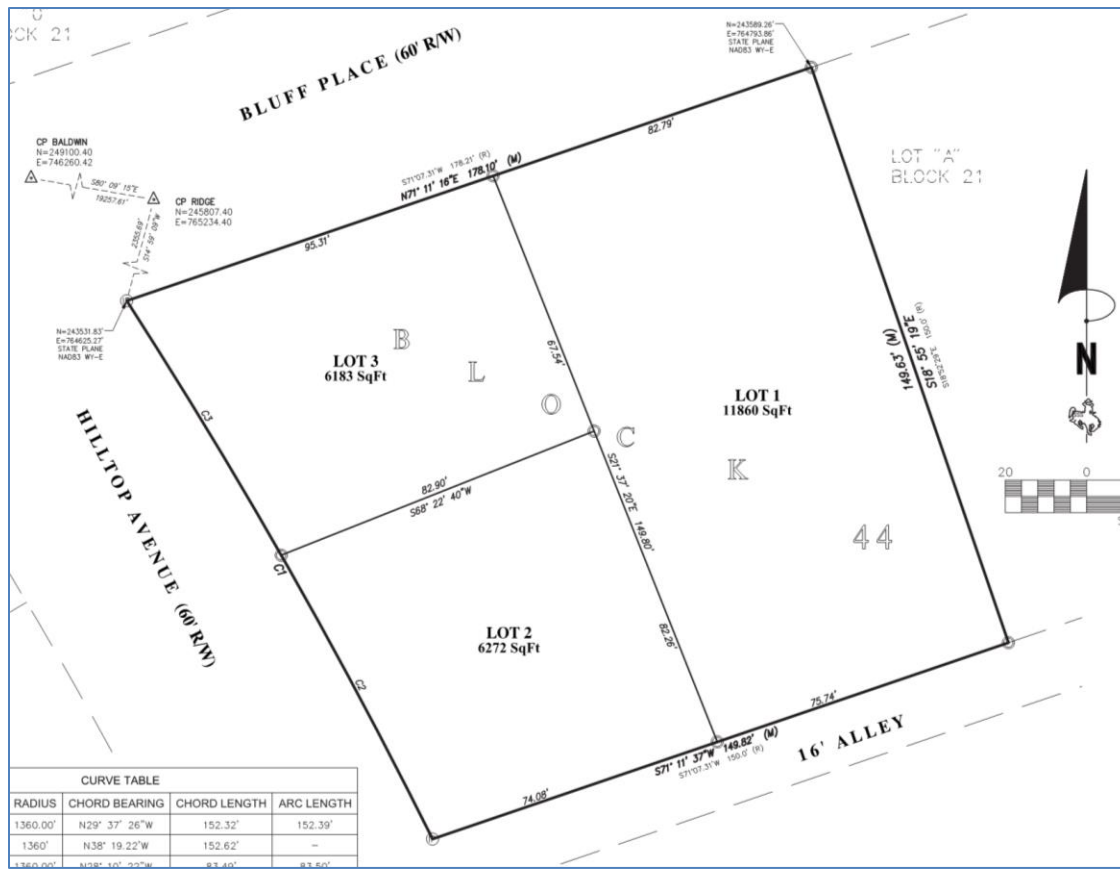

Map #3 – Future Land Use
Source: Cheyenne/Laramie County GIS
Cooperative Program

2. PLANNING - *The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities.*

This plat proposes creating three residential lots in the MR Medium-density Residential zone district. All surrounding properties are previously developed and are currently zoned MR. This platting action would not have an undue influence on the potential redevelopment of surrounding properties. The lots proposed with this platting action are significantly smaller in square footage than the surrounding parcels; however, the proposed lots are similar in street frontage to surrounding parcels. The impact of two new single-family homes would likely be minor, as the new development would have similar front and side setbacks to the existing homes in the neighborhood.

As Hilltop Avenue is designated as a collector road, access to Lots 2 and 3 would be limited. Lot 2 would be required to access off of the alley, and Lot 3 would be required to access off of Bluff Place. Exact access location would be addressed at the time of building permit.

Buffalo Ridge Estates, 11th Filing Final Plat Map.

3. SUBDIVISION STANDARDS - Division of land meets the purposes, intent, and all applicable standards in Article 4.

Transportation Network:

The plat proposes dividing land within an established street network – no additions or subtractions from the transportation network are suggested. This plat is part of a block which has a perimeter of about 5,300 linear feet. The standard for maximum perimeter for newly developing residential areas is 2,200 linear feet. However, there is no opportunity for this plat to create a meaningful break in the existing block, and Staff's judgement is that the plat qualifies for the infill exception from maximum block sizes (UDC 4.3.3.c.6).

Community Facility Fees:

This land was platted in 1959 as part of Buffalo Ridge Estates. No City plat fees were collected with the original platting action. This plat proposes platting the subject property for residential development. The Residential Enhancement Fee is \$400 per unit. For fees based on acreage, the area of the plat is pro-rated to the nearest tenth of an acre. The required fees for the 0.5 acres of land in this plat are as follows:

Land Acquisition Fee	\$175 (\$350 per acre)
Infrastructure Fee	\$175 (\$350 per acre)
Total Land Acquisition & Infrastructure Fees:	\$350.00

Per UDC Section 4.2.5, Table 4-2, the Land Acquisition & Infrastructure fee are payable at the time of the signing of the final plat.

Projected Residential Enhancement Fee \$1,200 (\$400 per unit)

Per UDC Section 4.2.5, Table 4-2, Enhancement Fees are payable at the issuance of a building permit for each structure. A residential structure already exists on Lot 1, therefore the enhancement fee for Lot 1 would only be due if the existing house was demolished and a new structure was built.

Total Fees due at signing of the plat: \$350.00

Open Space:

During the plat process, this property is not required to provide open space. Residential open space is not required at time of platting on infill development of less than 10 acres, as long as alternative open space options are available (UDC 4.4.3.b.3).

Required Improvements:

This division can provide all required utilities to the properties within this development. The existing structure is serviced by utilities to the north and south, and no re-alignment of utility service lines or easements for service lines are necessary.

4. PHASING - *Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned.*

No specific phasing is proposed with this project. The existing structure is proposed to remain on Lot 1 – construction on Lots 2 and 3 would occur after the platting action is complete.

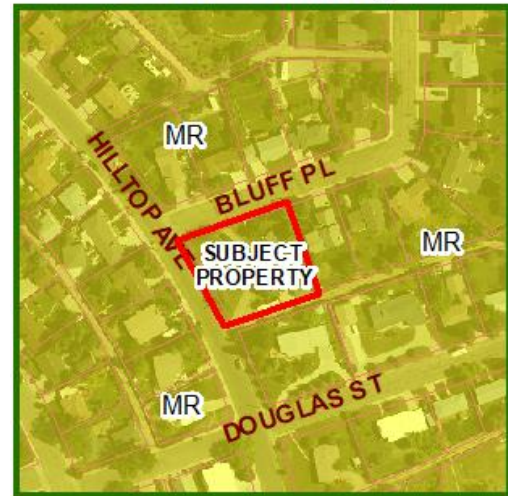

5. STUDIES - *The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts.*

The applicant submitted traffic and drainage worksheets. Due to the size of the property, the stormwater water quality requirements will need to be met at the time of any construction. No other studies were requested with this application and no further concerns were identified by Staff.

6. ZONING - *All proposed lots shall be buildable lots according to the existing or proposed zoning district standards, and result in site design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district. All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance.*

The proposed lot sizes are within the range allowed in the MR zone. The new lot 1 has the frontage and area to be considered the DD5 lot type. The new lots 2 and 3 have the frontage and area to be considered the DD7 or SD1 lot type. The MR zone in which this property is located "is intended for a mix of density and dwelling types within a neighborhood [and] applicable to areas where more compact neighborhood development patterns are desired." (ref UDC 5.3.2) The district's regulations are designed to encourage these uses, while also protecting nearby areas. The proposed plat meets these objectives.

Current Zoning

Map #4 – Zone Districts
Source: Cheyenne/Laramie County GIS
Cooperative Program

7. SURROUNDING DEVELOPMENT - *The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property.*

The typical single-family lots east of Hilltop (near the proposed plat) are about 75' wide and 12,000sqft. The typical single-family lots west of Hilltop (near the proposed plat) are about 70' wide and 9,000sqft. Lot 1 is proposed at about 83' wide and 12,000sqft. Lot 2 is proposed at about 83' and 6,000sqft. Lot 3 is proposed at about 69' wide and 6,000sqft. The size of Lots 2 and 3 are significantly smaller than the typical lots in the area, but the frontage of all three lots is similar to the surrounding neighborhood. Front setbacks would remain similar throughout the neighborhood and the lack of depth to the proposed parcels should not unduly influence surrounding properties.

8. PUBLIC HEALTH, SAFETY, AND WELFARE – *Whether the application will harm the public health, safety or general welfare.*

Staff is satisfied the proposed plat would not adversely affect the public health, safety, or general welfare.

FINAL PLAT DATA: In reviewing, providing comments, and making recommendations and decisions on a proposed final plat, the Staff, Planning Commission and City Council shall use the following 3 criteria, as found in Section 2.1.3.d:

1. The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan.
2. The application meets any conditions or modifications of the approved preliminary plat.
3. The application meets the purposes, intent, and applicable standards of Article 4.

As this plat is being pursued as an expedited application, review criteria 1 and 2 are not applicable. Review criterion 3 is also found in the Preliminary Plat process (as criterion 3) and is covered in subsection 3 above.

REVIEW

REVIEWING AGENCIES WITH COMMENTS:

- Planning and Development (Seth Lloyd)
 - o **(FYI)** The plat appears eligible for expedited review.
 - o **(FYI)** Lot 1 is proposed as a DD5 lot. The proposed lot with existing structure meets area, frontage, setbacks, and coverage requirements. The existing structure is addressed off of Hilltop, and will need changed to be addressed off of Bluff Place with this subdivision.
 - o **(FYI)** Lots 2 and 3 are proposed as DD7 lots. Note that the properties would be considered to front off of Hilltop; however, as Hilltop is a collector street, vehicle access will be required to be off of the alley or Bluff.
 - o **(FYI)** Lots 2 & 3 could also be built as a duplex (SD1).
 - o **(Corrections made with revised map)** Technical Corrections:
 - "Buffalo Ridge Estates, Sixth Filing" was recorded in 1963. Please rename to "Buffalo Ridge Estates, 11th Filing"
 - Please renumber "Block 40".
 - Please remove "1st Filing" wherever it appears (it was "Buffalo Ridge Estates", not "Buffalo Ridge Estates, 1st Filing").
- Engineering Department – Drainage (Michael Vinson)
 - o **(FYI)** Due to the size of the property, the stormwater water quality requirements will need to be met at the time of any construction.

ALL OTHER REVIEWING AGENCIES DID NOT PROVIDE COMMENTS.
