Re: Nationway Reconstruction Project

Dear Mr. Cobb,

Thank you so much for considering Western Research and Development, Ltd. (Western) for the design work on this project. I have attached to this letter a detailed scope of work (Exhibit B) for the Nationway Reconstruction Project in addition to the summary below.

1. Western will be responsible for the design of the intersection at Nationway/12th Street/Ridge Road. Said intersection will be defined as approximately 100 feet to the east of the intersection on 12th Street, approximately 100 feet north and south on Ridge Road, and approximately 300 feet west on Nationway or a distance far enough to remove the existing "oiled" base material and replace with suitable drainage infrastructure, proper base material and asphalt to bring to City Standards.
2. Western will be responsible for mitigation of the drainage issue for said intersection. Western will design appropriate drainage infrastructure to relieve the high-water problem that is affecting the asphalt at this intersection.
3. Western will incorporate into the plan set the drawings for the mill and overlay for the section of road from Logan Avenue to said intersection along Nationway and from said intersection on Ridge Road to College Drive. Said drawings and liability for the mill and overlay will be stamped by the City Engineer and be the responsibility of the City of Cheyenne.
4. Western will add in two days of drafting time that may be required by the City of Cheyenne for miscellaneous work not associated with said intersection.
5. Western will accomplish a complete redesign of the signals associated with said intersection which will be tied into the existing City system.
6. Western will use the same configuration for the lanes as exists currently.
7. Western will upgrade and redesign any sidewalks, ADA ramps, and entrances affected by the signal redesign for said intersection.
8. Western will work with BOPU to design and upgrade the existing waterline that crosses said intersection to the limits stated in item 1 above.
9. All other utilities will remain as existing and no redesign is incorporated into said scope of work.
10. All changes to the above scope and or to the detailed scope attached will constitute a formal change order for time and design fee.
