MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Seth Lloyd, Planner
Subject: UDC-21-00034 – Whitney Ranch, 3rd Filing Final Plat
Date: March 22, 2021

Background:

The item for consideration is a *Final Plat*. This is approved by Resolution.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral 3/22/2021
- Public Services Committee 4/6/2021
- Final consideration 4/12/2021

Planning Commission Recommendation:

The Planning Commission heard this item at their March 1, 2021 meeting and unanimously recommended the Governing Body approve this application.

The Planning Commission Staff report is attached and has not been changed; except that the plat map is the revised plat map submitted 3/8/2021.

The Planning Commission Staff report and Planning Commission recommendation contained conditions. These conditions have been addressed by the submission of a response to comments, a drainage report, and a revised map.

RESOLUTION NO. _____

ENTITLED: “A RESOLUTION AUTHORIZING THE MAYOR AND THE CITY CLERK TO SIGN A FINAL PLAT FOR WHITNEY RANCH, 3RD FILING, A PLAT OF A PORTION OF THE SOUTHWEST QUARTER OF SECTION 23, TOWNSHIP 14 NORTH, RANGE 66 WEST, OF THE 6TH P.M., CHEYENNE, LARAMIE COUNTY, WYOMING (LOCATED NORTH OF DELL RANGE BOULEVARD WEST OF WHITNEY ROAD).”

WHEREAS, Gysel Whitney, LLC, has subdivided said land in accordance with the statutes in such cases made and provided; and

WHEREAS, Gysel Whitney, LLC, the owner of the above described land, has caused a subdivision plat of said land to be made, acknowledged, and certified, particularly describing the lots, block, easements, and right-of-way; and

WHEREAS, the above described subdivision plat has been presented to the City of Cheyenne Planning Commission for consideration; the Planning Commission has recommended that said plat be approved by the Governing Body; and the plat has been duly executed by the Development Office; and

NOW, THEREFORE BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, THAT the subdivision described as Whitney Ranch, 3rd Filing, Cheyenne, Wyoming, be and the same hereby is approved and confirmed as presented, and that the Mayor and the City Clerk be and are hereby authorized, empowered, and directed to execute said plat when Community Facility Fees have been paid in full.

PRESENTED, READ AND ADOPTED THIS _____ DAY OF _____, 2021.

PATRICK COLLINS, MAYOR

CITY OF CHEYENNE PLANNING COMMISSION

March 1, 2021

STAFF REPORT

FILE: UDC-21-00034: Whitney Ranch, 3rd Filing Final Plat

REQUEST: A final plat creating 107 residential lots and 7 other lots

LOCATION: North of Dell Range Boulevard, west of Whitney Road

APPLICANT: Whitney Ranch, LLC

AGENT: Brad Emmons, AVI, PC

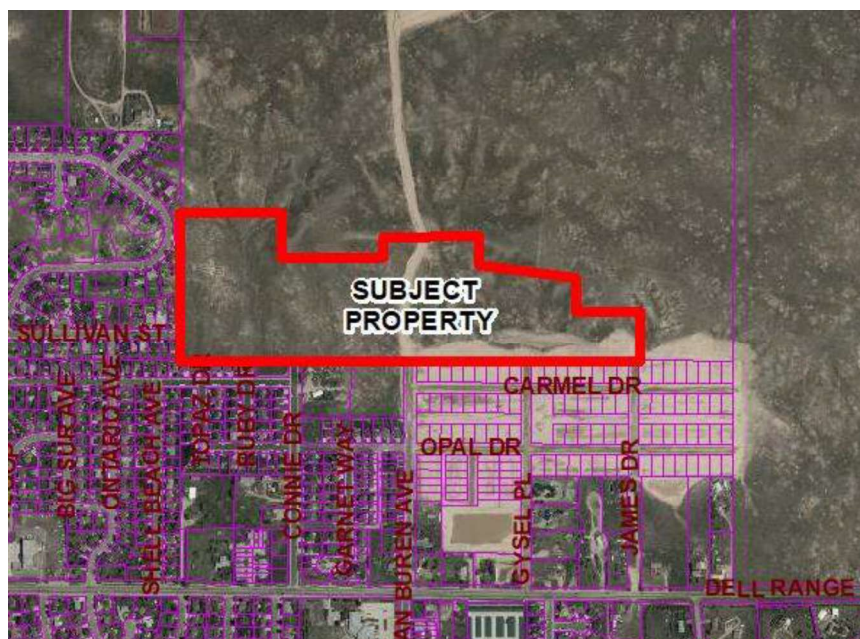

ZONING: County A-2 Agricultural

FUTURE LAND USE: Urban Residential

PROPOSED LOTS: 107 single-unit residential (single-family or duplex); and 7 detention, open space, or trail corridors

TOTAL AREA: 35.7 acres

CASE PLANNER: Seth Lloyd, Planner II – Development

RECOMMENDED MOTION:

Move to recommend the Governing Body **approve** the Whitney Ranch, 3rd Filing Final Plat, subject to staff's recommended conditions, noting that as conditioned, the project meets the review criteria for approval; and that a final plat addressing this condition of approval be prepared and presented to the Governing Body.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.3 Final Plat
- UDC Article 4 Subdivisions
- Plan Cheyenne

BACKGROUND:

This is a request to final plat 107 single-unit residential lots, with associated open space and detention lots, and public rights-of-way. The lots were preliminary platted as part of the Whitney Ranch, 3rd Filing preliminary plat which was approved by the Governing Body on July 27, 2020. Pursuant to UDC 2.1.2.c.6.a preliminary plats remain active 18 months after their approval or since the last final plat was approved within the preliminary plat.

Concurrent applications for an annexation and a zone change to MR Medium Density Residential have also been submitted.

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of final plat, the Commission must make the following findings required in UDC 2.1.3.d a detailed analysis is below. The purpose of a final plat review is to ensure compliance with the approved preliminary plat and its conditions of approval.

- 1) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)**

The layout of the Final Plat is identical to the approved Preliminary Plat in dedicated rights-of-way. The open space lots to the northwest and east have been reduced in size, and a detention pond has been relocated. The relocation of the detention pond removed six lots from Block 2, but added six lots to Block 4. The overall number of lots and sizes of the residential lots are substantially the same as with the approved preliminary plat. The applicant has indicated that the reason for moving the detention pond is to provide adequate detention capacity, which may not have been possible in the original location.

Adequate detention areas are encouraged by the Comprehensive Plan.

The application **complies** with this review criterion.

2) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)

The preliminary plat was approved on July 27, 2020 subject to the following conditions:

1. *Concurrent with final plat submittal:*
 - a. *Submit a drainage study*
 - b. *Update the traffic study to address staff-requested corrections*
 - c. *Provide a narrative clarifying the relationship of the Open Space parcel Lot 20, Block 7 and the extension of James Drive on the Network Plan or Final Plat with the Final Plat submittal*

A drainage study has not yet been submitted. City Staff is working with the applicant to coordinate the drainage study. The study and any needed revisions to the map will be submitted prior to Council approval.

A letter addressing traffic was submitted with the Final Plat application which substantially addressed the concerns of the City Traffic Engineer.

The Final Plat Map reduced the size of the open space parcel at the north end of James Drive, but the parcel is still contiguous to the existing terminus. The Transportation Network Plan submitted with the Final Plat still shows James Drive continuing northward (terminating in a cul-de-sac). Shrinking the eastern open space further such that James Drive could be extended on a future plat may be possible. Staff recommends the map be modified accordingly.

This **condition may be fulfilled as conditioned.**

2. *On the face of subsequent final plats:*
 - a. *Place a note on applicable plats limiting access to all lots along Van Buren Avenue.*

The Final Plat contains this note (Note 8 on the face of the plat). This **condition has been fulfilled.**

3. *Prior to approval of the final plat(s), the applicant/developer shall enter into an agreement with the City regarding impacts to Cheyenne Fire Rescue. The agreement shall identify the applicant/developer's proportionate share of the cost of extending service (land, facilities, and equipment) to the area and shall be determined based on the ISO Fire Suppression Rating Criteria and evaluation of said criteria.*

The applicant is meeting with City Staff to create the required agreement. The agreement has not yet been finalized. The agreement proposes a public safety fee to be paid per lot at time of building permit such that each lot pays the proportionate share of needed safety improvements. This will be completed prior to Council approval.

This **condition will be fulfilled prior to Council approval.**

4. *Prior to Engineering Plan Review approval, the applicant/developer shall enter into an agreement with the City regarding design and construction of roadway improvements*

(such as traffic signals, curbs, gutter, pavement, additional lanes, traffic calming devices, etc.). The applicant/developer shall pay their proportionate share of costs for design and improvements based on their impact to the system as identified in the Traffic Study submitted with this plat.

The applicant is meeting with City Staff to create the required agreement. The agreement has not yet been finalized. The applicant has submitted preliminary engineering documentation. The full fulfillment of this condition is **not applicable** at this time.

The application **complies** with this review criterion, as conditioned.

3) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

Transportation Network

Concepts regarding block layout, street design, and access were evaluated with the Preliminary Plat and no changes are proposed with the Final Plat submittal.

Community Facilities and Fees

Fee analysis regarding fees dues, exemptions, and credits were evaluated with the Preliminary Plat and the non-exempt area of the proposed Final Plat submittal is not substantially changing.

Total Fees due at signing of the plat: \$12,320.00

Open Space Systems

The open space narrative submitted with the Preliminary Plat application indicated the development proposed with this plat would provide trail corridors and natural areas. For residential development, open space is required at 750 square feet per dwelling unit or 8% of the gross plat area (whichever is less). This plat proposes 107 single-unit parcels and has a gross acreage of 48.6 acres. The required open space is 80,250sqft. Although the size of the natural areas have decreased with the final plat submittal, the natural areas provided with the Final Plat still exceed the minimum open space area required.

Required Improvements and Engineering Specifications

This proposed subdivision appears to be able to provide all required utilities to the properties within this development.

The application **complies** with this review criterion.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. Board of Public Utilities (BOPU) easements.
2. Tight "L" turns on the proposed streets.

3. Drainage design and easements.
4. Alignment of Sullivan Street.
5. Owner of record vs. owner listed on the Final Plat map.
6. Fire turn arounds necessary at the north end of Lasso Drive and Van Buren Avenue.
7. Development Agreement status.
8. The shrinkage of open space parcels.

The foregoing comments resulted in the following recommended conditions for approval:

1. Add Board of Public Utilities (BOPU) easements and associated note to the Final Plat.
2. Provide a drainage study.
3. Confirm the necessary Fire turn around will be provided at the north end of Lasso Drive and Van Buren Avenue.
4. Provide sufficient right-of-way for the proposed right-angle turns.

CONCLUSION:

Staff is satisfied that the application meets the review criteria set forth in UDC 2.1.3.(d) for Final Plat approval. The Final Plat is consistent with the approved Preliminary Plat. Staff recommends approval of the Final Plat with the following conditions:

1. Add Board of Public Utilities (BOPU) easements and associated note to the Final Plat.
2. Provide a drainage study.
3. Confirm the necessary Fire turn around will be provided at the north end of Lasso Drive and Van Buren Avenue.
4. Provide sufficient right-of-way for the proposed right-angle turns.
5. James Drive shall be dedicated according to the Transportation Network Plan provided with the plat submittal.

ALTERNATIVES:

1. Recommend approval of the project as submitted by the applicant.
2. Recommend that the application be approved with specific conditions or modifications, and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body. (**Staff Recommendation**)
3. Recommend that the application be denied based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
4. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Options

The Commission may only condition the final plat in select circumstances. Conditions or modifications shall be to better meet standards and review criteria; or to address situations created by or aggravated by the proposed application, and which conditions are roughly proportional to the impacts of the proposed development. New conditions shall not be added.

STAFF RECOMMENDATION:

Staff recommends that the Planning Commission recommend the Governing Body **approve** the Whitney Ranch, 3rd Filing Final Plat with the following conditions:

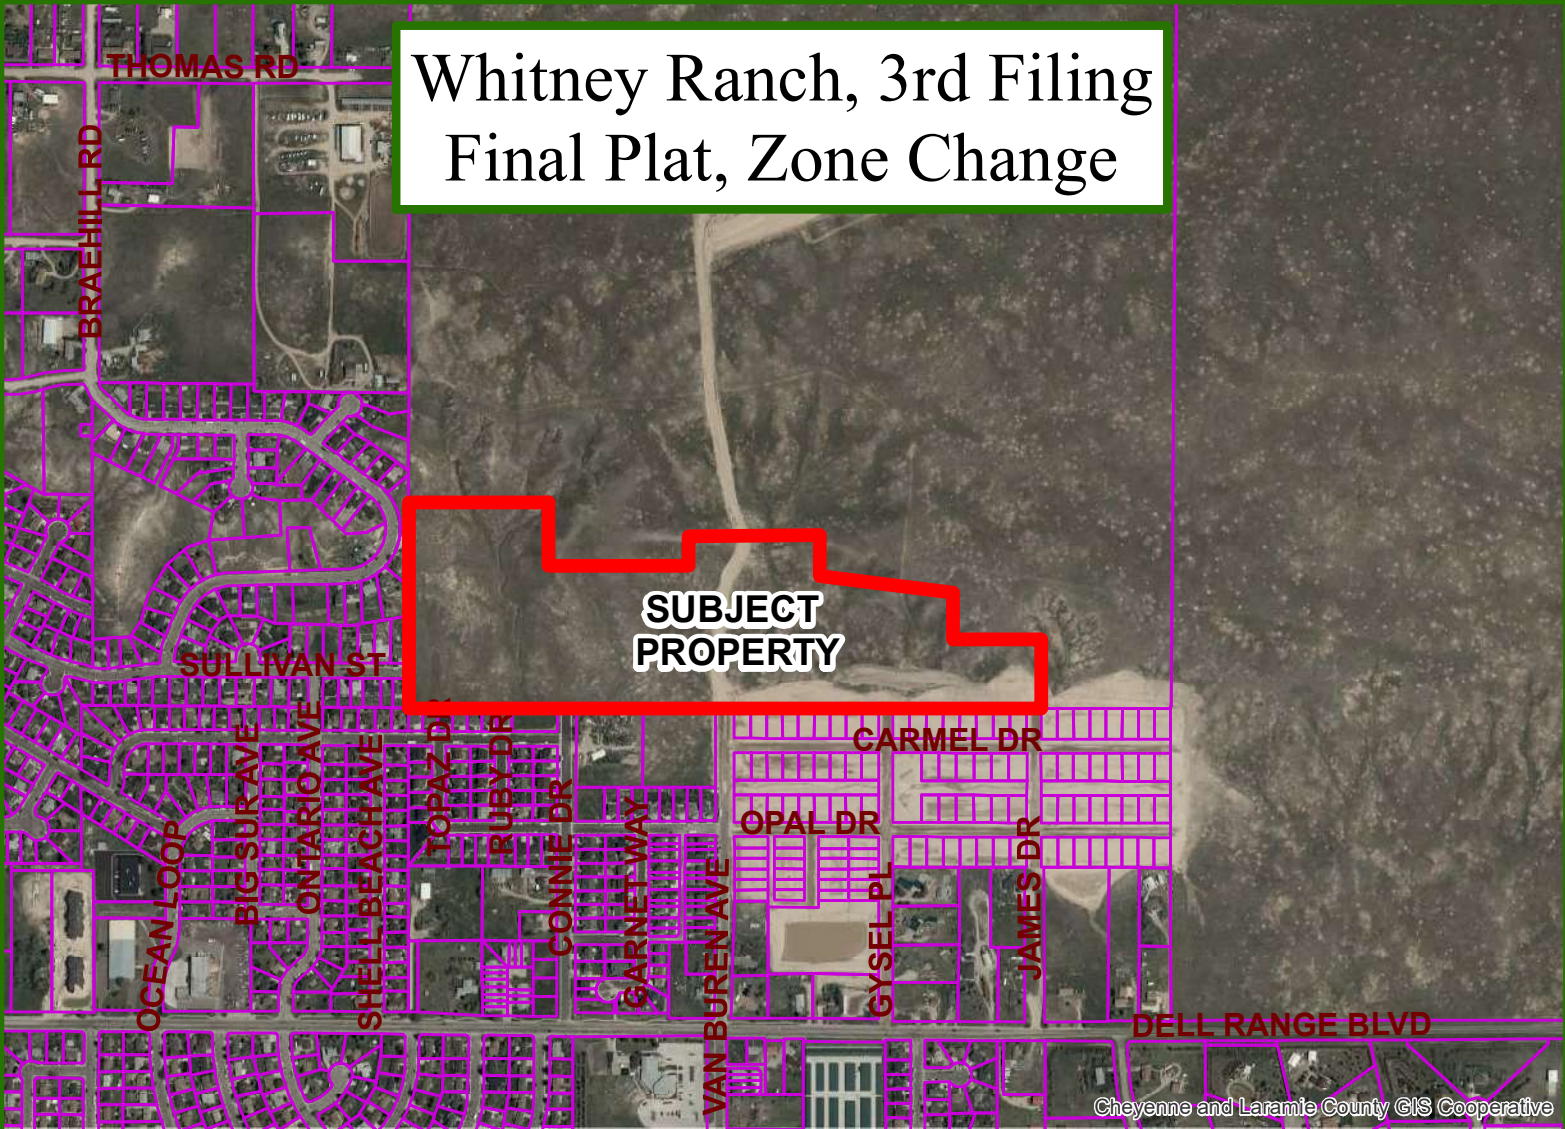

1. Add Board of Public Utilities (BOPU) easements and associated note to the Final Plat.

2. Provide a drainage study.
3. Confirm the necessary Fire turn around will be provided at the north end of Lasso Drive and Van Buren Avenue.
4. Provide sufficient right-of-way for the proposed right-angle turns.
5. James Drive shall be dedicated according to the Transportation Network Plan provided with the plat submittal.
