MEMORANDUM

DATE: May 15, 2021

TO: City of Cheyenne, The Honorable Patrick Collins, Mayor

FROM: Tim Barth, Director of Aviation, Cheyenne Regional Airport

REGARDING: Cheyenne Regional Airport Preliminary 2022 Operating Budget

On behalf of the Cheyenne Regional Airport, we would like to take this opportunity to present to the City of Cheyenne the preliminary 2022 Airport Operating Budget. Realizing this may be the first time for some of the Council to review the budget, we wanted to take a moment to explain the budget so you can understand the document you are reviewing.

BUDGET FLOW

The Cheyenne Regional Airport Board prepares their budget on an annual basis, for their fiscal year ending June 30. Like the City, the Airport's Cost Centers show Operating and Non-Operating Revenue, Capital Outlays, Matching Funds and Federal and State Grants. However, the budget is presented on a cash basis and excludes accrual items like depreciation. It should also be noted that Airport Revenue can only be spent in accordance with Federal guidelines given the amount of Federal investment in the Airport.

BUDGET SUMMARY

Operating Revenues: Are predicted for this budget cycle to be \$4.1 million. Operating revenues are predicted to be up slightly this coming year due to increased aviation traffic following COVID-19 impacts in 2020.

Non-Operating Revenues: Projected at \$8.4 million with the inclusion of the federal grant for runway construction, as well as other ancillary grants for capital projects.

Compensation & Benefits: Are projected at \$1.2 million, an increase of 1.5% compared to 2019 totals.

Airport and FBO Fuel and Supplies: Are predicted at \$1.6 million. This expense normally has risen in recent years, with an associated increase in FBO fuel sales revenue.

Contracted Services: Are projected at \$300,000 and cover costs associated with accounting, auditing, custodial, lawn care, snow removal and legal counsel contracts.

Capital Outlays: Are projected at \$11.5 million and funds will be expended for main runway reconstruction design, airfield maintenance issues and other capital projects. This outlay is funded by the United by the Department of Transportation.

Budget Profit/Loss: The Airport will use fund balance reserves to meet expenses this year, as well as applying for funding from the FAA under the CARES act. The amount of funding the Airport is expected to receive in FY22 related to the CARES act is currently calculated as the unrequested amount of \$1.9 million.
