Planning and Development Department

2101 O'Neil Avenue, Suite 202, Cheyenne WY 82001
(Phone) 307-637-6282 (Fax) 307-637-6366

MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Seth Lloyd, Planner
Subject: UDC-21-00102 – Saddle Ridge, 16th Filing Final Plat
Date: May 24, 2021

Background:

The item for consideration is a *Final Plat*. This is approved by Resolution.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral 5/24/2021
- Public Services Committee 6/8/2021
- Final consideration 6/14/2021

Planning Commission Recommendation:

The Planning Commission heard this item at their May 3, 2021 meeting and recommended the Governing Body approve this application by a vote of 4-1, with the following conditions:

1. Prior to approval of the final plat the applicant shall:
 - a. Obtain a Subdivision Standard Waiver for alternative street design for construction of Three Hearts Trail (labeled as alley on the proposed plat)
 - b. Enter into a development agreement regarding delayed improvement to Pershing Boulevard for the developer's proportionate share of required improvements.
 - c. Enter into a development agreement for public safety fees. Public safety fees shall be based on a January 2021 fee of \$756 per unit and shall be adjusted for inflation utilizing the construction cost index for twenty (20) cities, as issued by the current Engineering News Record to the date of final plat filing, *and this condition shall be subject to modification by the Governing Body at the time of their consideration.* [Italic text added by the Planning Commission at the Planning Commission meeting]
 - d. Update the traffic study.
2. Prior to Governing Body Approval of the final plat the plat shall be revised as follows:
 - a. Show all required Board of Public Utility utility locations (on a revised Preliminary Plat) and any necessary easements.
 - b. The alley shown on the plat shall be renamed to "Three Hearts Trail."
 - c. A note shall be added to the plat stating "Curbside trash / recycling / green waste collection service for Lots 7-10 Block 3 shall be at the discretion of the City due to the lack of turnaround for City collection apparatus. Alternative collection areas / sites may be required by the City and transportation to the alternative collection area / site shall be the responsibility of the homeowner."

3. Concurrent with future Engineering Plan Review submittal and subdivision construction, the applicant shall design and construct to City standards a 10' wide multiuse path connecting Dixon Road to the Greenway east of Lot 11, Block 3.

The Planning Commission Staff report is attached and has not been changed; except that the plat maps are the revised plat maps submitted 5/3/2021.

The Planning Commission Staff report and Planning Commission recommendation contained conditions. Some of these conditions have been addressed by the submission of a revised map; however, further revisions and submittals are requested to fulfill all conditions listed.

APPROVED

By Alessandra at 8:50 am, May 05, 2021

RESOLUTION NO. _____

ENTITLED: “A RESOLUTION AUTHORIZING THE MAYOR AND THE CITY CLERK TO SIGN A FINAL PLAT FOR SADDLE RIDGE, 16TH FILING, A PLAT OF A PORTION OF SECTION 25, TOWNSHIP 14 NORTH, RANGE 66 WEST, OF THE 6TH P.M., CHEYENNE, LARAMIE COUNTY, WYOMING (LOCATED NORTH OF PERSHING BOULEVARD, WEST OF CHRISTENSEN ROAD).”

WHEREAS, WJE, LLC, has subdivided said land in accordance with the statutes in such cases made and provided; and

WHEREAS, WJE, LLC, the owners of the above described land, has caused a subdivision plat of said land to be made, acknowledged, and certified, particularly describing the lots, block, easements, and right-of-way; and

WHEREAS, the above described subdivision plat has been presented to the City of Cheyenne Planning Commission for consideration; the Planning Commission has recommended that said plat be approved by the Governing Body; and the plat has been duly executed by the Development Office; and

NOW, THEREFORE BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, THAT the subdivision described as Saddle Ridge, 16th Filing, Cheyenne, Wyoming, be and the same hereby is approved and confirmed as presented, and that the Mayor and the City Clerk be and are hereby authorized, empowered, and directed to execute said plat when Community Facility Fees have been paid in full.

PRESENTED, READ AND ADOPTED THIS _____ DAY OF _____, 2021.

PATRICK COLLINS, MAYOR

(SEAL)
ATTEST:

KRISTINA F. JONES, CITY CLERK

CITY OF CHEYENNE PLANNING COMMISSION

May 3, 2021

STAFF REPORT

FILE: UDC-21-00102: Saddle Ridge, 16th Filing Preliminary Plat
(Expedited Request)

REQUEST: A preliminary and final plat proposing creation of 26 lots for residential development, with 1 open space lot, and associated rights-of-way

LOCATION: North of Pershing Boulevard, west of Christensen Road

APPLICANT: WJE, LLC – John Sayers

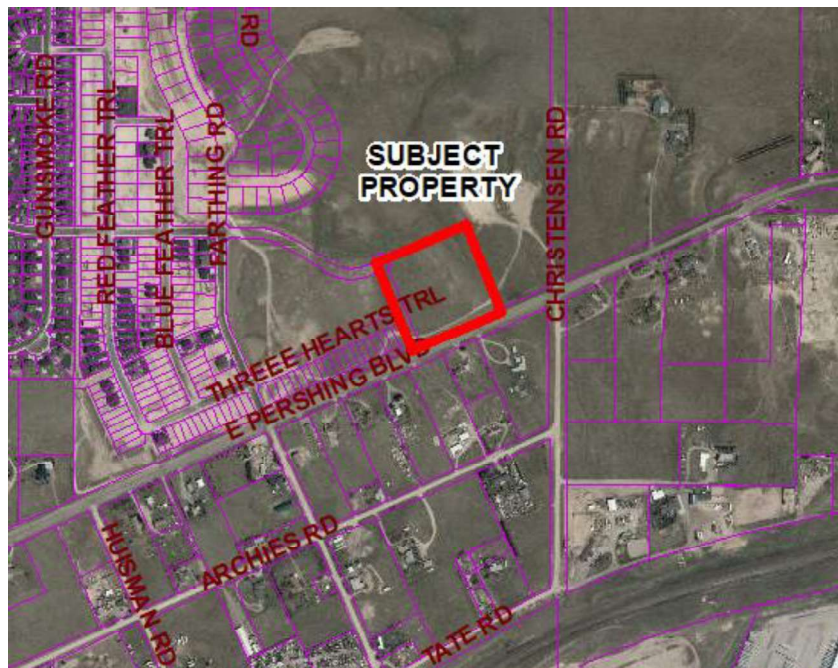

OWNER: WJE, LLC

CURRENT ZONING: County A-1 Agricultural and Rural Residential

PROPOSED ZONING: MR Medium-density Residential

PURPOSE: A preliminary and final plat proposing x lots for residential development

PREPARED BY: Seth Lloyd, Planner II – Development

RECOMMENDED MOTION:

Move to **approve** the Saddle Ridge 16th Filing Preliminary Plat subject to staff's recommended conditions, noting that as conditioned, the project meets the review criteria for approval; and that a final plat addressing these conditions of approval be prepared and presented to the Governing Body.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC 2.1.3 Final Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a preliminary plat for a 4.6 acre tract of land to create 26 lots for residential development, with associated streets and open space. The land is currently undeveloped in the County and concurrent zone change and annexation applications have been submitted. The land has never been previously platted. However, a regional Preliminary Plat in 2015 (Saddle Ridge 8th/9th Filing) proposed a street layout and development pattern for about 140 acres, of which this plat would be a portion. The currently-proposed plat reconfigures this section of the larger Preliminary Plat, but generally is consistent with the overall development program and network proposed by the original Preliminary Plat.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Urban Residential	County A-1	Undeveloped
North	Urban Residential	County A-1	Undeveloped
South	Urban Residential	County AR	Low density Single-family Residential
East	Urban Residential	County A-1, County A-2	Rural Residential
West	Urban Residential	MR, P	Single-family Residential

The property is currently zoned County A-1 Agricultural and Rural Residential, and is proposed to be zoned MR Medium-density Residential. The MR zone is intended for a mix of medium-density residential uses.

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Expedited Plat, the Commission must make the following findings required in UDC 2.1.2.d and UDC 2.1.3.d a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

On the future land use map found in PlanCheyenne, the subject land and surrounding area has been designated as Urban Residential. The Urban Residential designation encourages a range of more intensive residential uses.

Foundation 1 of PlanCheyenne encourages community growth. This development is in response to market demands and is within the Urban Service Boundary. The development patterns proposed by this plat are compatible with the designations found on the future land use map.

Foundation 2 of PlanCheyenne encourages new residential development to be compatible and connected with existing residential neighborhoods. The proposed plat ties into the adjacent neighborhoods and is consistent with the overall development program proposed by a previously-approved regional preliminary plat.

Foundation 7 of PlanCheyenne support the use of existing infrastructure and timely provision of services (including emergency and education services). Large developments on the edge of the community can create issues with providing services in an effective and timely fashion. Development of this area of the community creates the need to improve street and emergency service infrastructure.

The application **complies** with this review criterion.

2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)

This plat proposes creating 26 lots for residential development and one lot for open space. The plat also dedicates streets. The proposed layout is a different configuration from the original preliminary plat, but the exterior boundaries of the plat are substantially similar for this section and the plat is consistent with the previously-approved preliminary plat. The proposed plat would not have an undue influence on surrounding properties.

The application **complies** with this review criterion.

3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)

Transportation Network:

This plat is occurring within the area of a previously-approved preliminary plat which proposed a street network. The layout of this plat is consistent with the larger, previously-approved network. This project is proposing modifications to the approved Preliminary Plat on intersections and layout, hence the need for a new preliminary plat for this area.

Street section standards are also a part of Article 4, and the proposed east-west alley / hammerhead does not meet street standards. The other streets proposed by this subdivision meet street section standards. Staff has conditioned this project (Condition 1.a.) to require the alley shown on the plat be renamed to Three Hearts Trail and the applicant obtain a subdivision standard waiver for local street with and design prior to approval of the final plat.

Community Facility Fees:

For fees based on acreage, the area of the plat is pro-rated to the nearest tenth of an acre. The required fees for the 3.2 acres of non-exempt land in this plat are as follows:

Land Acquisition Fee	\$1,120 (\$350 per acre)
Infrastructure Fee	\$1,120 (\$350 per acre)
Total Land Acquisition & Infrastructure Fees	\$2,240.00

Per UDC Section 4.2.5, Table 4-2, the Land Acquisition & Infrastructure fee are payable at the time of the signing of the final plat.

Total Fees due at signing of the plat: \$2,240.00

Per UDC Section 4.2.5, Table 4-2, Enhancement Fees are payable at the issuance of a building permit for each structure.

Residential Enhancement Fee	\$400 per dwelling unit
Commercial Enhancement Fee	\$1,100 per acre

Open Space:

Open space is required at 750sqft per unit or 8% of the gross development area, whichever is less. Lot 11, Block 3 is proposed as an open space parcel. This is part of the larger open space system proposed by the general layout of Saddle Ridge as put forward by the approved Saddle Ridge 8th/9th Preliminary Plat.

Required Improvements:

This appears to be able to provide all required utilities to the lots within this development; however, the specific proposed layout of BOPU utilities is not shown. The BOPU asked for the proposed layout to be provided to ascertain if the layout was appropriate with needed easements, but this has not yet been provided. Staff has conditioned this plat (Condition 2.a).

Developments are required to provide improvements adjacent to their development. At this time Pershing Boulevard is improved to a rural road standard. Improvement of the road to urban standards is premature at this time due to the remoteness of this plat. Staff has recommended a condition that prior to final plat approval by the Governing Body the developer enter into an agreement for delayed improvements to Pershing Boulevard for their proportionate share of roadway improvements.

Greenway:

In conjunction with the Christensen Road project the City constructed a 10' wide greenway between Dell Range Boulevard and Commerce Circle. Also included in the project was the addition of a Greenway on the north side of Pershing Boulevard extending from Christensen Road extending west to the edge of this development. Staff has recommended a condition (Condition 3) that the Developer extend the 10' wide Greenway to connect to Dixon Drive, design be provided with subsequent Engineering Plan Reviews, and the Greenway be constructed in conjunction with the subdivision.

As conditioned, this application **complies** with this review criterion.

- 4) **Any phasing proposed in the application is clearly indicated and demonstrates a logical and well planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)**

No phasing is proposed with this project.

The application **complies** with this review criterion.

- 5) **The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

A drainage study and an addendum to a previously-submitted traffic study were submitted with this application.

Drainage: The site generally slopes from the northwest toward the southeast. The site itself is on a rise. The report submitted meets requirements for this stage of development.

Traffic: The Traffic Study addendum was completed for a previous project and there were no modifications made for this specific proposal. The City traffic engineer has asked for a letter to update the traffic study with specifics to this proposal. The applicant has indicated they are in consultation with their traffic engineer; however, nothing has yet been submitted to City Staff (see condition 1.d).

The application **complies** with this review criterion with conditions.

- 6) **Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

The proposed application occurs in concert with a proposal to zone the land MR Medium-density Residential. All lots which are proposed to be buildable meet the dimensional standards of the MR zone with the following caveats:

- Lots on Block 3 are too small to meet the standards for single-family home development, these lots will be required to be built with duplexes.
- Some of the Lots along Block 3 have frontage on a public alley / hammerhead instead of a public street. While the frontage meets code standards, the street fronted upon does not.

The MR zone is intended to develop with a variety of residential uses, and this plat includes both lots intended for single-family and duplex style residential development.

The application **complies** with this review criterion.

- 7) All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)**

This plat proposes 26 buildable lots and 1 unbuildable open space lot. The open space lot is proposed to be given to the City for ownership and maintenance and the development of a Greenway corridor.

The application **complies** with this review criterion.

- 8) The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)**

Properties adjacent to this plat to the east are zoned MR and P within City limits and have a similar development pattern to the pattern proposed by this plat. The areas to the north and east are currently undeveloped in the County, but are part of the Saddle Ridge 8th/9th Preliminary Plat which identified a similar development pattern throughout the area. The area to the south across Pershing is largely developed with a rural residential pattern outside of City limits. The entire area is designated Urban Residential by the Future Land Use Map, which encourages a mix of urban-style residential development patterns. The proposed plat includes the extension of a street which will allow future development to the north and east. This plat would not have any undue influence on surrounding properties.

The application **complies** with this review criterion.

- 9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)**

Street Naming:

Naming and addressing properties for emergency services is necessary. The substandard street / alley / hammerhead is unnamed and addressing the parcels of Block 3 is a public safety concern. Staff has recommended a condition of preliminary plat approval to require naming of the alley as Three Hearts Trail (Condition 2.b).

Utilities:

The adequate provision of water and sewer is a public health concern. Staff is satisfied the proposed plat would not otherwise adversely affect the public health, safety, or general welfare (Condition 2.a).

Public Safety:

This development represents a continued expansion and an increase in public safety service in the City. Recent preliminary plats have been required to contribute a monetary amount on a per unit basis for public safety fees to be placed in the Development Impact Fund earmarked for the purpose of enhancing the City's fire rescue infrastructure. Staff has recommended a (Condition 1.c) that the developer enter into a development agreement for this public safety prior to final plat approval. This dollar amount utilized is \$756 per unit based on January 2021 costs. The City will utilize that base fee and adjust for inflation utilizing the construction cost index for twenty (20) cities, as issued by the current Engineering News Record which is similarly used for calculating infrastructure reimbursements pursuant to Cheyenne Municipal Code subsection 1.16.070.b at the time the plat is scheduled for the Governing Body. Based on January 2021 numbers, the fee for 26 units is \$19,656. When adjusted for 3.78% inflation

through May 2021, the estimated total public safety fees is \$20,398.21 (\$19,656 * 03.78%). This number will be finalized in the agreement for the time the plat is scheduled for Governing Body consideration.

Solid Waste and Green Waste Collection

Creation of three four lots along a dead-end narrow road with no turnaround can pose a collection problem for solid waste, recycling, and green waste trucks. Staff has recommended a note on the plat that solid waste, recycling, and green waste services are not guaranteed to be provided curbside in the event pick-up cannot safely occur (Condition 2.c.). A majority of the City's solid waste accidents occur in scenarios where truck are reversing in narrow accessway locations.

As conditioned, the application **complies** with this review criterion with conditions.

- 10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)**

Remainder lots are not proposed with this plat.

The application **complies** with this review criterion.

- 11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)**

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

- 12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)**

Through the review process and application of the Preliminary Plat, Staff has recommended conditions to the plat. These conditions are summarized in the staff recommendation. While this condition does not pose a significant engineering or planning issue, it should be addressed prior to the Governing Body's consideration of the Final Plat.

The application **complies** with this review criterion, with conditions.

- 13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)**

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. The qualification of the 28' wide alley / hammerhead as a street and associated concerns, including:
 - Addressing and naming
 - Frontage
 - Street section
2. Lot type determinations
3. Proposed regional detention pond to the east of the development
4. Traffic study updates
5. The demonstration of BOPU utility locations (including hydrants)

CONCLUSION:

Staff is satisfied that the application largely meets the review criteria and therefore recommends approval of the expedited plat application as submitted by the applicant, with conditions.

The area this plat is proposed in is anticipated to develop as a largely residential neighborhood, based on both existing development and the patterns proposed by the comprehensive plan. The proposed plat is consistent with this development pattern.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body.
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body (**Staff Recommendation**).
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

STAFF RECOMMENDATION:

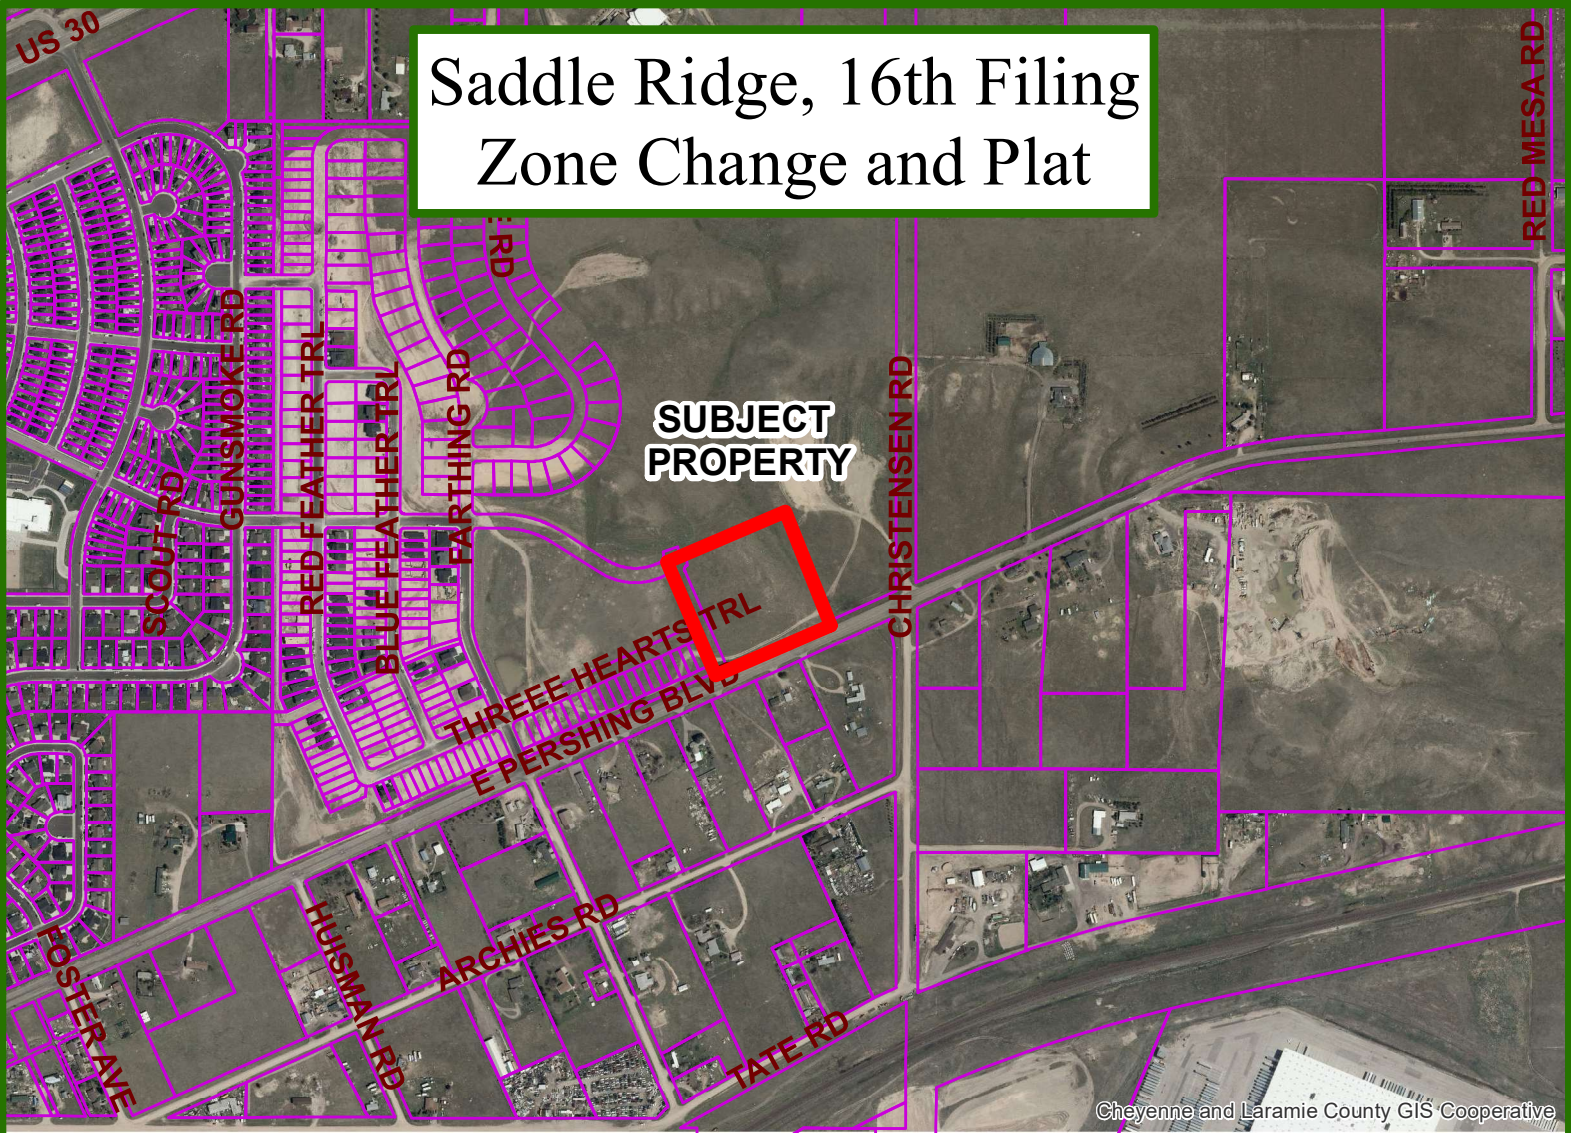

Staff recommends approval of the expedited Preliminary Plat and advancing the Final Plat to the Governing Body subject to the following conditions:

1. Prior to approval of the final plat the applicant shall:
 - a. Obtain a Subdivision Standard Waiver for alternative street design for construction of Three Hearts Trail (labeled as alley on the proposed plat)
 - b. Enter into a development agreement regarding delayed improvement to Pershing Boulevard for the developer's proportionate share of required improvements.
 - c. Enter into a development agreement for public safety fees. Public safety fees shall be based on a January 2021 fee of \$756 per unit and shall be adjusted for inflation utilizing the construction cost index for twenty (20) cities, as issued by the current Engineering News Record to the date of final plat filing.
 - d. Update the traffic study.
2. Prior to Governing Body Approval of the final plat the plat shall be revised as follows:
 - a. Show all required Board of Public Utility utility locations (on a revised Preliminary Plat) and any necessary easements.
 - b. The alley shown on the plat shall be renamed to "Three Hearts Trail."
 - c. A note shall be added to the plat stating "Curbside trash / recycling / green waste collection service for Lots 7-10 Block 3 shall be at the discretion of the City due to the lack of turnaround for City collection apparatus. Alternative collection areas / sites may be required by the City and transportation to the alternative collection area / site shall be the responsibility of the homeowner."
3. Concurrent with future Engineering Plan Review submittal and subdivision construction, the applicant shall design and construct to City standards a 10' wide multiuse path connecting Dixon Road to the Greenway east of Lot 11, Block 3.

Letter of Authorization	signed letter of authorization.pdf
Project Location (Street Address or General Location):	East of Dixon Drive Between Wilderness and Pershing Boulevard
Assessor's Parcel ID number(s)	14662510001800
Total Project Area	4.30 Acres/ 187,476 S.F.
Existing Zoning	Other: County A-1

Application-Specific Information

Eligibility Determination	I acknowledge that staff has determined this is eligible to be submitted as an expedited plat.
Written Statement	Christensen Road construction changed from a roundabout situation to a straight intersection. This made us reconsider the design and hence the submittal you have before you for expedited. The road access point changed from Dixon Drive to Wilderness.
Current Subdivision	Unplatted
Lots affected by this proposal	None
A pre-application meeting is not required, but recommended. Please indicate the date the pre-application meeting was held.	03/02/2021

Upload any pre-application meeting notes or summaries relevant to this proposal.

Are any easements proposed to be added, modified, or **Yes**
removed?

If easements are proposed to be added, modified, or removed. Attach Franchise Utility approval letters from all affected utilities. Failure to provide this information could result in delay of application review.

Open Space Approach

The open space allocation for the 16th Filing area was included in the master planning for all future phases of Saddle Ridge in conjunction with the preliminary plat approval in 2015. The total project boundary for these newest and future Filings in the masterplan is 139.25 acres. Of this total acreage, we are donating 19.64 acres of parks, open space, and pedestrian pathway corridors, which equates to 14.1% of the total master planned Saddle Ridge project area. This is well above the 8% UDC open space donation requirement. For a visual representation of where the open space parcels are located in the masterplan, please see the 2015 approved preliminary plat for Saddle Ridge 8th and 9th Filings on file at the City.
