RESOLUTION NO. _____

ENTITLED: "A RESOLUTION AMENDING RESOLUTION NOS. 5934 AND 5998 PERTAINING TO ADOPTION OF A REVISED CHEYENNE-LARAMIE COUNTY BOARD OF HEALTH FEE SCHEDULE FOR INSPECTION SERVICES, PERMIT FEES, AND OTHER VARIOUS SERVICES."

WHEREAS, Wyo. Stat. § 35-1-305(a) authorizes local boards of health to fix and charge reasonable fees for services; and

WHEREAS, the Cheyenne-Laramie County Board of Health currently provides inspection services for food service operations, body art, childcare facilities, campgrounds, small wastewater systems, swimming pools/spas, massage establishments and therapists, non-hazardous liquid waste haulers, rural property; and

WHEREAS, the Cheyenne-Laramie County Board of Health wishes to amend its health fee schedule for inspection services, permit fees, and other various services as previously adopted by City Resolution No. 5934, approved by the Governing Body on June 11, 2018, and City Resolution No. 5998, approved by the Governing Body on June 24, 2019, to revise the health fee schedule for inspection services, permit fees, and other various services provided by the Cheyenne-Laramie County Board of Health, which health fee schedule is set forth in Exhibit A attached to this resolution and incorporated by reference herein; and

WHEREAS, the public hearing required by Wyo. Stat. § 35-1-305(c) was conducted on May 18, 2021 by the Cheyenne-Laramie County Board of Health; and

WHEREAS, prior to the fees being assessed, the health fee schedule must be adopted by the City of Cheyenne and Laramie County Board of Commissioners for its respective jurisdictions.

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, that the revised health fee schedule for inspection services, permit fees, and other various services provided by the Cheyenne-Laramie County Board of Health, which health fee schedule is set forth in Exhibit A, is hereby adopted.

PRESENTED, READ, AND ADOPTED this _____ day of _____, 2021.

Patrick Collins, Mayor

BOH Announcement March 16th 2021
BOH adoption May 18th , 2021
City Council Resolution June
County Commissioners Resolution June
Effective date July 1, 2021

RESOLUTION ADOPTING CHANGES TO FEES CHARGED FOR VARIOUS SERVICES AND INSPECTIONS PURSUANT TO W.S. 35-1-305

WHEREAS, W.S. §35-1-305(a), authorizes the Cheyenne-Laramie County Board of Health to impose and modify fees charged for various services and inspections provided and performed by the Cheyenne-Laramie County Health Department in its mission for the prevention of disease and the promotion of health within Laramie County Wyoming with approval of the Laramie County Commissioners and the City of Cheyenne;

WHEREAS, W.S. §16-3-103, requires at least 45 days public notice and a reasonable opportunity for public comment before the Cheyenne-Laramie County Board of Health to adopt, amend, or repeal rules and regulations;

WHEREAS, the Cheyenne-Laramie County Board of Health has complied with the requirements of W.S. §16-3-103(a);

NOW THEREFORE BE IT RESOLVED BY THE CHEYENNE-LARAMIE COUNTY BOARD OF HEALTH, that the Cheyenne-Laramie County Board of Health enacts, effective July 1, 2021, changes to fees charged by the Cheyenne-Laramie County Health Department as reflected in the attached fee structure and repeals previously enacted fees for the same services and inspections.

CHEYENNE-LARAMIE COUNTY BOARD OF HEALTH

ECONOMIC ANALYSIS DIVISION

Matthew H. Mead, Governor | Dean Fausset, Director | Wenlin Liu, Interim Administrator

FOR IMMEDIATE RELEASE

October 16, 2018

Contact: Amy Bittner, Senior Economist

Wyoming Cost of Living Index for the Second Quarter of 2018

CHEYENNE – The State of Wyoming, Economic Analysis Division reported that Wyoming experienced a 3.3 percent increase in annual (**All Items**) inflation from the second quarter of 2017 to the second quarter of 2018. Inflation is measured over six consumer categories in the Wyoming Cost of Living Index (WCLI). Statewide annual inflation rates by consumer category for the second quarter of 2018: Transportation (8.7%), Apparel (6.6%), Medical (3.6%), Housing (2.1%), Food (2.1%), and Recreation & Personal Care (-0.3%). Higher gasoline prices contributed to the year-over-year Transportation inflation. Consumers saw higher prices at the pump due to increased oil prices. During this same time, the U.S. Consumer Price Index (U.S. CPI) reported inflation of 2.9 percent (June 2017 to June 2018).

Inflation figures are also available for five regions in the State. For the second quarter of 2018, the Northeast region recorded the highest annual increase (4.1%) followed by the Central (3.6%), Southeast (3.2%), Northwest (3.2%), and Southwest (1.8%). Inflation measures year-over-year prices changes. The inflation figures compare the second quarter of 2018 to the second quarter of 2017. An economic downturn in Wyoming began in early 2015. At this time, the State experienced heavy employment losses and reductions in revenue due to decreased mineral extraction activities. Wyoming lost one percent of its population from July 1, 2016 to July 1, 2017. It was not until the end of 2016 that things started to pick up in the State's mining industry (including oil and gas extraction). Wyoming's total employment in the second quarter of 2018 increased by 1.4 percent from one year earlier. This growth was the largest year-over-year increase since the fourth quarter of 2014.

The Wyoming Cost of Living Index (WCLI) consists of two parts, **Inflation**, which measures year-over-year change (annual) and the **Comparative Cost of Living Index** which compares each county's cost of living in one period (not over time) to the statewide average. The inflation figures for the second quarter of 2018 represent the percent change in the price level of a standard basket of selected consumer items priced in the second quarter of 2018, compared with the price level of the same goods recorded one year ago (second quarter of 2017). The Comparative Cost of Living Index represents each county's price level compared to the statewide average (100) during a single time period, in this case, the second quarter of 2018.

For the second quarter of 2018, the Comparative Cost of Living Index ranked Teton (158) as the county with the highest **All Items** value, which indicates that the cost of living in Teton County

was estimated 58 percent higher than the statewide average in the quarter. Sublette County ranked second in the **All Items** Comparative Cost of Living Index (106).

The **Housing** category carries the largest weight in a consumer's budget and typically drives the overall Comparative Cost of Living Index values. Comparative Cost of Living Index data were also produced by consumer category for every county. Counties with **Housing** category index values above the statewide average in the second quarter of 2018 included Teton (212), Laramie (107), and Sublette (105).

Counties with lower **All Items** Comparative Cost of Living Index values in the second quarter of 2018 included Washakie, Niobrara, and Big Horn. These counties have small, rural populations and typically show lower **All Items** Comparative Cost of Living Index values.

Comparative Cost of Living Index values for all counties in Wyoming are listed in Table 1 on page 4. Movement in ranking from a previous survey does not indicate that the price level has increased or decreased in a particular county. Instead, these values reflect relative price levels in each county, *at the time of data collection*, compared with the statewide average of 100.

Survey Methodology

The WCLI is produced biannually, the second quarter and fourth quarter. Price data are collected in twenty-eight cities and towns in Wyoming and the data are used to build a Comparative Cost of Living Index by county and to estimate overall inflation rates for Wyoming and the five designated

regions of the State. A map of the twenty-eight cities where price data were collected is on page 5.

Communities across the State are included in the WCLI based on the following criteria: First, the largest city or town in each county is priced; additionally, prices are collected in any city or town with populations greater than 5,000 or in cases of a city or town having at least 80 percent of a county's largest community's population. In counties where only one community was priced, those prices were used to represent the entire county. In counties where two communities were surveyed, a population-weighted average of the prices for the two communities was used for the entire county. In addition, starting with the second quarter of 2003 WCLI report, Afton, in Lincoln County, was added as a sampling point through legislative action in 2003. Kemmerer is still priced. Afton and Kemmerer report separate Comparative Cost of Living Index numbers. Beginning with the second quarter of 2004, Afton, has been included in the inflation calculations.

The 140 consumer items surveyed were aggregated into six categories, which were then weighted using item weights from the U.S. Bureau of Labor Statistics (BLS), Consumer Price Index (CPI-U), reflective of their overall importance in the average consumer's budget. These categories, and their respective weight components, include Housing (48.1%), Transportation (16.5%), Food (13.4%), Recreation & Personal Care (9.5%), Medical (8.7%), and Apparel (3.8%).

The data are weighted by population to more accurately represent the price changes experienced by the majority of consumers in Wyoming, which showed an overall, statewide inflation rate of 3.3 percent in the second quarter of 2018. Nationally, the inflation rate from June 2017 to June 2018 was 2.9 percent (CPI-U), as reported by the BLS in the Consumer Price Index.

The Division wishes to extend its sincere appreciation to all of the businesses and individuals whose cooperation and assistance made this survey possible.

Note: The 2Q99 inflation calculations mark the first time the WCLI used all 23 counties to calculate the inflation rates.

Previously, only 15 counties were used. Starting with the 2Q04 report, the inflation numbers include Lincoln-Afton.

* 4th Quarter represents the December to December and 2nd Quarter represents the June to June percent change in the US CPI-U.

Regional Composition for Inflation Estimate:

Southeast: Albany, Carbon, Goshen, Laramie, Niobrara, and Platte counties.

Southwest: Lincoln-Kemmerer, Lincoln-Afton, Sublette, Sweetwater, and Uinta counties.

Central: Converse, Fremont, and Natrona counties.

Northeast: Campbell, Crook, Johnson, Sheridan, and Weston counties.

Northwest: Big Horn, Hot Springs, Park, Teton, and Washakie counties.

Surveyed Communities and WCLI Regions

Note: Starting with the 2Q03 WCLI report, North Lincoln County (Afton) is included in the comparative index, and is tabulated separately from South Lincoln County (Kemmerer).

FOR IMMEDIATE RELEASE

October 21, 2019

Contact: Amy Bittner, Principal Economist

Wyoming Cost of Living Index for the Second Quarter of 2019

CHEYENNE - The State of Wyoming, Economic Analysis Division has released the second quarter of 2019 Wyoming Cost of Living Index (WCLI). Inflation is reported for the State, by consumer category, and for five regions in the State. Inflation measures year-over-year price changes in six consumer categories. The inflation figures for the second quarter of 2019 represent the percent change in the price level of a standard basket of selected consumer items priced in the second quarter of 2019, compared with the price level of the same goods recorded one year ago (second quarter of 2018).

- All Items Statewide inflation 2.0%
- Statewide inflation by consumer category:
 - Medical 5.0%
 - Apparel 3.6%
 - Housing 2.7%
 - Food 2.3%
 - Recreation & Personal Care -0.3%
 - Transportation -0.8%
- Regional inflation rates:
 - Northeast 2.3%
 - Central 2.3%
 - Southwest 2.2%
 - Northwest 1.9%
 - Southeast 1.7%

Nationally, the inflation rate from June 2018 to June 2019 was 1.6 percent (CPI-U), as reported by the U.S. Bureau of Labor Statistics (BLS) in the Consumer Price Index.

The Wyoming Cost of Living Index (WCLI) consists of two parts, **Inflation**, which measures year-over-year change (annual) and the **Comparative Cost of Living Index** which compares each county's cost of living in one period (not over time) to the statewide average. The Comparative Cost of Living Index represents each county's price level compared to the statewide average (100) during a single time period, in this case, the second quarter of 2019.

For the second quarter of 2019, the Comparative Cost of Living Index ranked Teton (161) as the county with the highest **All Items** value, which indicates that the cost of living in Teton County was estimated 61 percent higher than the statewide average in the quarter.

Comparative Cost of Living Index values for all counties in Wyoming are listed in Table 1 on page 3. Movement in ranking from a previous survey does not indicate that the price level has increased or decreased in a particular county. Instead, these values reflect relative price levels in each county, *at the time of data collection*, compared with the statewide average of 100. Comparative Cost of Living Index data were also produced by consumer category for every county.

Survey Methodology

The WCLI is produced biannually, the second quarter and fourth quarter. Price data are collected in twenty-eight cities and towns in Wyoming and the data are used to build a Comparative Cost of Living Index by county and to estimate overall inflation rates for Wyoming and the five designated regions of the State. A map of the twenty-eight cities where price data were collected is on page 4.

Communities across the State are included in the WCLI based on the following criteria: First, the largest city or town in each county is priced; additionally, prices are collected in any city or town with populations greater than 5,000 or in cases of a city or town having at least 80 percent of a county's largest community's population. In counties where only one community was priced, those prices were used to represent the entire county. In counties where two communities were surveyed, a population-weighted average of the prices for the two communities was used for the entire county. In addition, starting with the second quarter of 2003 WCLI report, Afton, in Lincoln County, was added as a sampling point through legislative action in 2003. Kemmerer is still priced. Afton and Kemmerer report separate Comparative Cost of Living Index numbers. Beginning with the second quarter of 2004, Afton, has been included in the inflation calculations.

The 140 consumer items surveyed were aggregated into six categories, which were then weighted using item weights from the U.S. Bureau of Labor Statistics (BLS), Consumer Price Index (CPI-U), reflective of their overall importance in the average consumer's budget. These categories, and their respective weight components, include Housing (48.4%), Transportation (16.3%), Food (13.3%), Recreation & Personal Care (9.5%), Medical (8.7%), and Apparel (3.8%).

The data are weighted by population to more accurately represent the price changes experienced by the majority of consumers in Wyoming.

The Division wishes to extend its sincere appreciation to all of the businesses and individuals whose cooperation and assistance made this survey possible.

2Q19	1.6	2.0	1.7	2.2	2.3	2.3	1.9

Note: The 2Q99 inflation calculations mark the first time the WCLI used all 23 counties to calculate the inflation rates.

Previously, only 15 counties were used. Starting with the 2Q04 report, the inflation numbers include Lincoln-Afton.

* 4th Quarter represents the December to December and 2nd Quarter represents the June to June percent change in the US CPI-U.

Regional Composition for Inflation Estimate:

Southeast: Albany, Carbon, Goshen, Laramie, Niobrara, and Platte counties.

Southwest: Lincoln-Kemmerer, Lincoln-Afton, Sublette, Sweetwater, and Uinta counties.

Central: Converse, Fremont, and Natrona counties.

Northeast: Campbell, Crook, Johnson, Sheridan, and Weston counties.

Northwest: Big Horn, Hot Springs, Park, Teton, and Washakie counties.

Surveyed Communities and WCLI Regions

Note: Starting with the 2Q03 WCLI report, North Lincoln County (Afton) is included in the comparative index, and is tabulated separately from South Lincoln County (Kemmerer).

FOR IMMEDIATE RELEASE

October 28, 2020

Contact: Amy Bittner, Principal Economist

Wyoming Cost of Living Index for the Second Quarter of 2020

CHEYENNE - The second quarter of 2020 Wyoming Cost of Living Index (WCLI) is now available from the State of Wyoming, Economic Analysis Division. The WCLI consists of two parts, **Inflation**, which measures year-over-year change (annual) and the **Comparative Cost of Living Index** which compares each county's cost of living in one period (not over time) to the statewide average.

Inflation is reported for the State, by consumer category, and for five regions in the State. Inflation measures year-over-year price changes in six consumer categories. The inflation figures for the second quarter of 2020 represent the percent change in the price level of a standard basket of selected consumer items priced in the second quarter of 2020, compared with the price level of the same goods recorded one year ago (second quarter of 2019).

- All Items Statewide inflation 1.1%
- Statewide inflation by consumer category:
 - Food 4.9%
 - Medical 3.0%
 - Apparel 2.7%
 - Housing 2.6%
 - Recreation & Personal Care. -1.0%
 - Transportation -7.3%
- Regional inflation rates:
 - Southeast 1.8%
 - Central 1.7%
 - Northwest 0.8%
 - Southwest 0.2%
 - Northeast -0.2%

Nationally, the inflation rate from June 2019 to June 2020 was 0.6% (CPI-U), as reported by the U.S. Bureau of Labor Statistics (BLS) in the Consumer Price Index.

The Comparative Cost of Living Index represents each county's price level compared to the statewide average (100) during a single period, in this case, the second quarter of 2020. For the second quarter of 2020, the Comparative Cost of Living Index ranked Teton (159) as the county with the highest **All Items** value, which indicates that the cost of living in Teton County was estimated 59 percent higher than the statewide average in the quarter.

Comparative Cost of Living Index values for all counties in Wyoming are listed in Table 1 on page 3. Movement in ranking from a previous survey does not indicate that the price level has increased or decreased in a particular county. Instead, these values reflect relative price levels in each county, *at the time of data collection*, compared with the statewide average of 100. Comparative Cost of Living Index data were also produced by consumer category for every county.

Survey Methodology

The WCLI is produced biannually, the second quarter and the fourth quarter. Price data are collected in twenty-eight cities and towns in Wyoming and the data are used to build a Comparative Cost of Living Index by county and to estimate overall inflation rates for Wyoming and the five designated regions of the State. A map of the twenty-eight cities where price data were collected is on page 4.

Communities across the State are included in the WCLI based on the following criteria: First, the largest city or town in each county is priced; additionally, prices are collected in any city or town with populations greater than 5,000 or in cases of a city or town having at least 80 percent of a county's largest community's population. In counties where only one community was priced, those prices were used to represent the entire county. In counties where two communities were surveyed, a population-weighted average of the prices for the two communities was used for the entire county. In addition, starting with the second quarter of 2003 WCLI report, Afton, in Lincoln County, was added as a sampling point through legislative action in 2003. Kemmerer is still priced. Afton and Kemmerer report separate Comparative Cost of Living Index numbers. Beginning with the second quarter of 2004, Afton, has been included in the inflation calculations.

The 140 consumer items surveyed were aggregated into six categories, which were then weighted using item weights from the U.S. Bureau of Labor Statistics (BLS), Consumer Price Index (CPI-U), reflective of their overall importance in the average consumer's budget. These categories, and their respective weight components, include Housing (48.4%), Transportation (15.7%), Food (13.8%), Recreation & Personal Care (9.6%), Medical (8.8%), and Apparel (3.6%).

The data are weighted by population to more accurately represent the price changes experienced by the majority of consumers in Wyoming.

The Division wishes to extend its sincere appreciation to all of the businesses and individuals whose cooperation and assistance made this survey possible.

Goshen	88	97	76	101	98	104		102

Starting with the 2Q03 Comparative Index, Lincoln-Afton was included.

Table 2 - Annual Inflation Rates by Category

QUARTER:	Inflation Rate by Category (Statewide Average):						Recreation &	
	All Items	Food	Housing	Apparel	Transportation	Medical	Personal Care	
WEIGHTS:	100.0	13.8	48.4	3.6	15.7	8.8		9.6
2Q14	2.7	3.0	3.9	7.8	-2.1	4.2		1.1
4Q14	1.1	4.1	3.7	3.7	-11.5	4.7		0.9
2Q15	0.9	1.7	1.9	2.5	-4.4	4.7		0.0
4Q15	0.5	2.2	-0.3	5.9	-1.4	5.0		-0.5
2Q16	-0.6	0.1	-0.6	-2.0	-2.7	4.3		-1.6
4Q16	0.6	1.4	-1.2	3.2	4.5	3.7		-1.5
2Q17	1.1	3.8	-0.3	5.4	1.1	3.3		1.3
4Q17	2.3	3.5	1.7	1.9	2.8	3.2		2.1
2Q18	3.3	2.1	2.1	6.6	8.7	3.6		-0.3
4Q18	2.5	2.6	2.0	4.7	2.8	4.8		1.2
2Q19	2.0	2.3	2.7	3.6	-0.8	5.0		-0.3
4Q19	2.2	0.9	2.7	7.1	1.4	4.0		-0.4
2Q20	1.1	4.9	2.6	2.7	-7.3	3.0		-1.0

Note: Item weights may not add to 100 due to rounding.

Note: The 2Q99 inflation calculations mark the first time the WCLI used all 23 counties to calculate the inflation rates.

Previously, only 15 counties were used. Starting with the 2Q04 report, the inflation numbers include Lincoln-Afton.

Table 3 - Annual Inflation Rates by Region

QUARTER:	U.S. CPI*	Statewide All Items	Inflation Rate By Region (All Items):				
			Southeast	Southwest	Central	Northeast	Northwest
2Q14	2.1	2.7	3.2	0.8	2.8	3.8	2.7
4Q14	0.8	1.1	0.3	-0.9	3.1	1.9	0.8
2Q15	0.1	0.9	0.8	-1.1	0.7	2.4	2.3
4Q15	0.7	0.5	1.1	1.1	-2.1	0.9	2.7
2Q16	1.0	-0.6	1.0	-0.1	-3.2	-2.2	2.2
4Q16	2.1	0.6	3.1	-0.5	-1.3	-1.2	1.9
2Q17	1.6	1.1	1.7	1.1	0.2	0.4	2.7
4Q17	2.1	2.3	2.2	2.9	1.9	1.2	3.9
2Q18	2.9	3.3	3.2	1.8	3.6	4.1	3.2
4Q18	1.9	2.5	1.9	1.0	2.7	4.8	2.3
2Q19	1.6	2.0	1.7	2.2	2.3	2.3	1.9
4Q19	2.3	2.2	2.5	1.6	2.3	1.9	2.5
2Q20	0.6	1.1	1.8	0.2	1.7	-0.2	0.8

Note: The 2Q99 inflation calculations mark the first time the WCLI used all 23 counties to calculate the inflation rates.

Previously, only 15 counties were used. Starting with the 2Q04 report, the inflation numbers include Lincoln-Afton.

* 4th Quarter represents the December to December and 2nd Quarter represents the June to June percent change in the US CPI-U.

Regional Composition for Inflation Estimate:

Southeast: Albany, Carbon, Goshen, Laramie, Niobrara, and Platte counties.

Southwest: Lincoln-Kemmerer, Lincoln-Afton, Sublette, Sweetwater, and Uinta counties.

Central: Converse, Fremont, and Natrona counties.

Northeast: Campbell, Crook, Johnson, Sheridan, and Weston counties.

Northwest: Big Horn, Hot Springs, Park, Teton, and Washakie counties.

Surveyed Communities and WCLI Regions

Note: Starting with the 2Q03 WCLI report, North Lincoln County (Afton) is included in the comparative index, and is tabulated separately from South Lincoln County (Kemmerer).

TABLE 4 - AVERAGE RENTAL RATES - 2Q20 & 2Q19

County	APARTMENT (1)			MOBILE HOME LOT (2)			HOUSE (3)			MOBILE HOME (4)		
	2Q20	2Q19	Percent Change	2Q20	2Q19	Percent Change	2Q20	2Q19	Percent Change	2Q20	2Q19	Percent Change
