(Phone) 307-637-6282 (Fax) 307-637-6366

MEMO

To: Honorable Mayor Patrick Collins and Members of the City Council
From: Connor White, Planner II
Subject: UDC-21-00094 / Sweetgrass, 7th Filing / Final Plat
Date: July 7, 2021

Background:

The item for consideration is a *Final Plat*. This is approved by Resolution.

The proposed Governing Body review schedule is as follows:

- Introduction and Referral 7/12/2021
- Public Services Committee 7/20/2021
- 2nd reading (or final consideration 7/26/2021

Planning Commission Recommendation:

The Planning Commission heard this item at their July 6, 2021 meeting and by a vote of 3-0, recommended the Governing Body approve this application.

The Planning Commission Staff report is attached and has not been changed.

The condition that was placed on the approval was modified at the Planning Commission meeting by Staff to read as follows:

1. Prior to recording of the final plat, the applicant shall enter into a development agreement for public safety fees. Public safety fees shall be based on a January 2021 fee of \$756 per unit and shall be adjusted for inflation utilizing the construction cost index for twenty (20) cities, as issued by the current Engineering News Record to the date of final plat filing. This condition shall not apply if City-wide public safety impact fees are adopted and applicable to this development prior to recording of this plat.

Approved as to
form only:

Date: 6/30/21

RESOLUTION NO. _____

ENTITLED: "A RESOLUTION AUTHORIZING THE MAYOR AND THE CITY CLERK TO SIGN A FINAL PLAT FOR SWEETGRASS, 7TH FILING, A SUBDIVISION OF A PORTION OF THE N1/2 OF SECTION 16, TOWNSHIP 13 NORTH, RANGE 66 WEST OF THE 6TH P.M., CITY OF CHEYENNE, LARAMIE COUNTY, WYOMING (LOCATED SOUTH OF EAST COLLEGE DRIVE EAST AND ADJACENT TO SWEETGRASS DRIVE)."

WHEREAS, Sweetgrass Land Co., LLC, has subdivided said land in accordance with the statutes in such cases made and provided; and

WHEREAS, Sweetgrass Land Co., LLC, the owner of the above described land, has caused a subdivision plat of said land to be made, acknowledged, and certified, particularly describing the lots, block, easements, and right-of-way; and

WHEREAS, the above described subdivision plat has been presented to the City of Cheyenne Planning Commission for consideration; the Planning Commission has recommended that said plat be approved by the governing body; and the plat has been duly executed by the Development Office; and

NOW, THEREFORE BE IT RESOLVED BY THE GOVERNING BODY OF THE CITY OF CHEYENNE, WYOMING, THAT the subdivision described as Sweetgrass, 7th Filing, Cheyenne, Wyoming, be and the same hereby is approved and confirmed as presented, and that the Mayor and the City Clerk be and are hereby authorized, empowered, and directed to execute said plat, when Community Facility Fees have been paid in full.

PRESENTED, READ AND ADOPTED THIS _____ DAY OF

_____, 2021.

PATRICK COLLINS, MAYOR

(SEAL)
ATTEST:

KRISTINA F. JONES, CITY CLERK

CITY OF CHEYENNE PLANNING COMMISSION

July 6, 2021

STAFF REPORT

FILE: UDC-21-00094: Sweetgrass, 7th Filing Preliminary Plat (Expedited Request)

REQUEST: A preliminary plat proposing creation of 161 lots.

LOCATION: South of E. College Drive and East of Sweetgrass Drive.

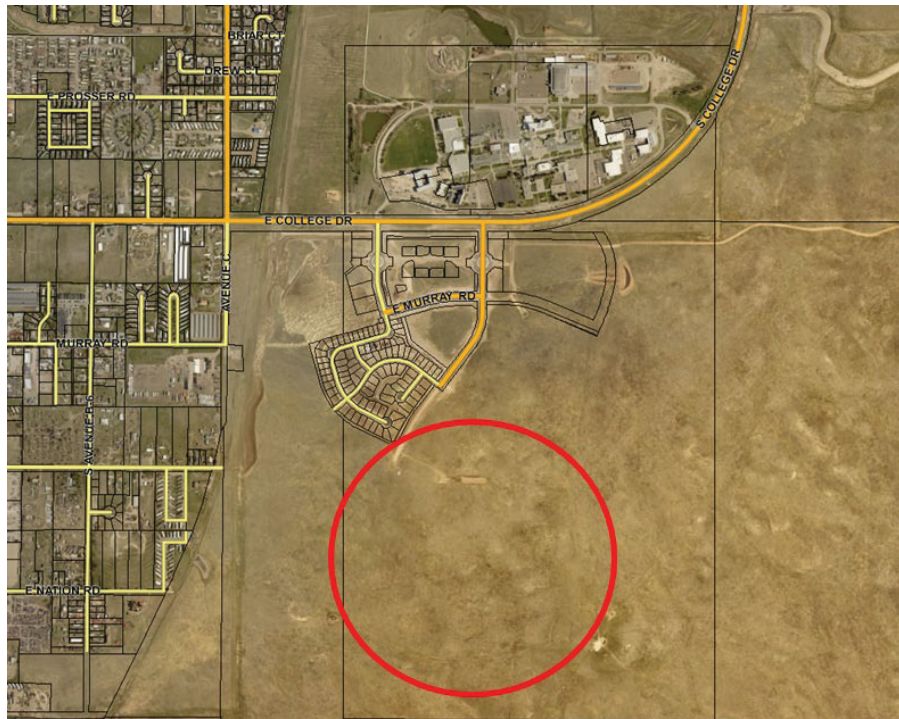

APPLICANT: Casey Palma, Steil Surveying Services

OWNER: Sweetgrass Land Co., LLC

ZONING: Sweetgrass PUD (Ordinances 4232, 4286)

PURPOSE: A preliminary plat proposing 149 residential lots, two Civic Lots, a Lot designated for future Multi-family Residential, and the remainder being designated as open space on a 94.06-acre parcel of land for future development

PREPARED BY: Connor White, Planner II

RECOMMENDED MOTION:

Move to recommend exceptions for block sizes and **approve** the Sweetgrass 7th Filing Preliminary Plat subject to staff's recommended conditions, noting that as conditioned, the project meets the review criteria for approval, advancing the Final Plat to the Governing Body.

APPLICABLE CITY CODE SECTION(S) AND PLANS:

- UDC 2.1.2 Preliminary Plat Approval
- UDC Article 4 Subdivisions
- UDC Article 5 Zoning Regulations
- PlanCheyenne

BACKGROUND:

The applicant is requesting approval of a preliminary plat for a 94.06-acre tract of land to create 161 lots for future residential development. 149 of the lots will be for residential development, one lot will be dedicated for a new school, one lot will be dedicated for a future joint Police and Fire Station and one lot will be for future Multi-family residential, while the remainder of the lots are dedicated as open space tracks for the integrated trail system. The land is currently vacant.

SURROUNDING LAND USE AND ZONING:

	Future Land Use Designation	Zoning	Land Use
Subject Site	Urban Residential	Sweetgrass PUD (MDR)	Vacant
North	Urban Residential	Sweetgrass PUD (Hospitality/Event Center)	Vacant
South	Urban Residential	Sweetgrass PUD (MDR)	Vacant
East	Urban Residential	Sweetgrass PUD (Golf/Open Space/ Trails)	Vacant
West	Urban Residential	Sweetgrass PUD (Open Space)	Vacant

The property is zoned as part of the Sweetgrass PUD. The Sweetgrass PUD is generally described as “a ±2,349.5-acre community envisioned as a distinctive mixed-use master planned village, integrating retail, entertainment, lodging, employment opportunities, and variety of intimately scaled residential neighborhoods.” The district generally allows a broad range of uses. The MDR is intended to provide for residential development allowing for a variety of single-family detached and attached dwelling units, located nearby to schools and commercial centers. An extensive open space network should be provided with within each MDR parcel. To promote greater diversity, lower density development, such as that permitted within LDR districts, is permitted within MDR districts.

ANALYSIS OF APPLICATION CONFORMANCE WITH REVIEW CRITERIA:

Should the Planning Commission wish to recommend approval of the Expedited Plat, the Commission must make the following findings required in UDC 2.1.2.d and UDC 2.1.3.d a detailed analysis is below:

1) The application is in accordance with the development policies and physical patterns identified in the Comprehensive Plan. (UDC 2.1.2.d.1)

This development is in conformance with the principles and future land uses identified in PlanCheyenne. The property is within the Urban Service Boundary and has access to all utilities.

The future land use map within PlanCheyenne identifies this area as developing with a residential use. This plat proposes 149 residential lots with an incorporated trail system connecting this development to existing and future developments.

Foundation 1 of PlanCheyenne encourages community growth. This development is in response to market demands and is within the Urban Service Boundary. The development patterns proposed by this plat are compatible with the designations found on the future land use map.

Foundation 2 of PlanCheyenne encourages new residential development to be compatible and connected with existing residential neighborhoods. The proposed plat ties into the adjacent platted neighborhoods.

Foundation 4 of PlanCheyenne encourages a connected, multi-model transportation system that can accommodate future growth. The proposed plat connects to existing developments but is constrained by topography to the north. A proposed trail system increases the potential for pedestrian and cyclist connectivity.

Foundation 6 of PlanCheyenne encourages the creation of open space and trails and the preservation of significant natural resources. The plat proposes dedicated open space lots that will be a part of an integrated trail system throughout Sweetgrass.

The application **complies** with this review criterion.

2) The application reflects sound planning and urban design principles with respect to existing and potential future development in the vicinity, including consideration of current and future streets, open spaces, blocks and lots, and public utilities or facilities. (UDC 2.1.2.d.2)

This plat is one of the MDR zones of the Sweetgrass PUD. The MDR is intended to provide for residential development allowing for a variety of single-family detached and attached dwelling units, located nearby to schools and commercial centers. An extensive open space network should be provided within each MDR parcel. To promote greater diversity, lower density development, such as that permitted within LDR districts, is permitted within MDR districts.

This plat also proposes a Lot designated for a Future Elementary School and a Lot designated for a Future Joint Police and Fire Station. The continuation of lots designated as open space for an integrated trail system are also provided.

The application **complies** with this review criterion.

3) The division of land meets the purposes, intent, and all applicable standards in Article 4. (UDC 2.1.2.d.3)

Transportation Network:

The plat proposes dividing land Southeast of an existing street network and adding to the network. The plat proposes adding nine new streets with three connections into the existing Sweetgrass Drive and a connection into Sweetgrass 5th Filings subdivision. The proposed street network is in compliance with the network proposed by the Sweetgrass development.

With the development continuing to move further south, a second major connection to the west will be required with future subdivisions. Currently all traffic is being funneled to Sweetgrass Drive and up to College Drive. An Emergency secondary access has been provided to the west that will be built with this development.

Maximum and minimum block dimensions are established by the Unified Development Code. Block 17, 19, 21, and 26 within this proposed subdivision do not meet the block standards put forth in the code; however, the oversized blocks appear to qualify for exceptions and the overall pattern still provides an interconnected system of streets. Staff recommends that block 17, 19, and 26 qualify for the Natural Features and Open Space System exception (see exception 1).

Community Facility Fees:

For fees based on acreage, the area of the plat is pro-rated to the nearest tenth of an acre. The required fees for the 39.5 acres of non-exempt land in this plat are as follows:

Land Acquisition Fee	\$13,825 (\$350 per acre)
Infrastructure Fee	\$13,825 (\$350 per acre)
Total Land Acquisition & Infrastructure Fees	\$27,650.00

Per UDC Section 4.2.5, Table 4-2, the Land Acquisition & Infrastructure fee are payable at the time of the signing of the final plat.

Residential Enhancement Fee	\$400 per dwelling unit
Commercial Enhancement Fee	\$1,100 per acre

Per UDC Section 4.2.5, Table 4-2, Enhancement Fees are payable at the issuance of a building permit for each structure.

Lot 1, Block 16 is designated as a future Elementary School and Lot 1, Block 25 is designated as a future Joint Police and Fire Station. Should these parcels not develop as such, additional Land Acquisition and Infrastructure fees will be required at time of development.

Open Space:

Open Space parcels are provided on this plat. They are platted as Tracks AA through II and labeled as Private Trails/ Open Space. These tracks are part of Sweetgrass PUD trail system. These open space parcels make up 21.06-acres of the proposed plat.

Required Improvements:

This division can provide all required utilities to the properties within this development.

The BOPU provided the following as a general comment:

Per the BOPU's Infrastructure Policies & Design Criteria, UTILITY EXTENSIONS AND CONNECTIONS III.A.1. Extensions Required Across the Property. As per sections 1.16.040, 1.16.050 and 1.16.060 of Chapter 1.16 of the CMC, the property owner/developer shall be

required to extend the water and sanitary sewer utilities to the farthest point (or points) of the property being developed. All water mains must be a looped system. These water and sewer utility extensions shall be to a point (or points) that are logical for projected future connections by future development projects, as determined by the BOPU and the property owner/developer. With the approval of this Preliminary and the Final Plat, the BOPU does not give their final approval of the Water and Sanitary Sewer layout shown on the Preliminary Plat.

The application **complies** with this review criterion.

- 4) **Any phasing proposed in the application is clearly indicated and demonstrates a logical and well-planned development pattern. This may include consideration of amenities and public facilities of the subdivision within each phase compared to the anticipated timing or the likelihood of future phases being constructed as planned. (UDC 2.1.2.d.4)**

No specific phasing is proposed with this project. The Sweetgrass PUD calls this portion of the 2,000 plus acre Sweetgrass site, part of phase 1 through 3 of 10.

The application **complies** with this review criterion.

- 5) **The impacts identified in specific studies or technical reports that were prepared or requested to be prepared in association with the application, and whether the findings and recommendations of these reports, or any modifications or conditions on approval of the application, can mitigate these impacts. (UDC 2.1.2.d.5)**

Drainage:

A preliminary Drainage Report was submitted and reviewed. It was found that the plan meets the intent of the preliminary drainage report requirements contained in Article 3 of the Cheyenne UDC.

Traffic:

A Traffic Report was submitted with the final Sweetgrass PUD. The proposed platting action was reviewed and found to be within the scope of the original Traffic Report.

The application **complies** with this review criterion.

- 6) **Lots proposed for development shall be buildable lots according to the existing or proposed zoning district standards, result in design and development patterns that meet the Intent and Applicability statements of the existing or proposed zoning district, and not aggravate nonconforming setbacks or currently adopted building and fire code access and separation requirements. (UDC 2.1.2.d.6)**

The proposed plat is one of the MDR zones of the PUD. The MDR is intended to provide for residential development allowing for a variety of single-family detached and attached dwelling units, located nearby to schools and commercial centers. An extensive open space network should be provided with within each MDR parcel. To promote greater diversity, lower density development, such as that permitted within LDR districts, is permitted within MDR districts. All lots proposed for development are buildable lots in this zone district.

The application **complies** with this review criterion.

- 7) All parcels not proposed as buildable lots and which are not dedicated to and accepted by the City shall have a clearly defined entity responsible for ongoing maintenance. (UDC 2.1.2.d.7)**

The PUD requires common lots to be owned, developed, improved, managed, and/or maintained by homeowners' associations, architectural review board(s), community development districts, and/or similar entities (PUD Section 1, Subsection G).

The application **complies** with this review criterion.

- 8) The application will not create any undue influence on existing or potential development for adjacent property considering the existing zoning and Comprehensive Plan policies for that property. (UDC 2.1.2.d.8)**

This plat is in conformance with the design and layout anticipated for this parcel by the Sweetgrass PUD. Adjacent Sweetgrass developments were designed and laid out with this development as an integral part of the broader development pattern.

The application **complies** with this review criterion.

- 9) The application is not harmful to the public health, safety, and welfare. (UDC 2.1.2.d.9)**

Public Safety:

This development represents a continued expansion and an increase in public safety service in the City. Recent preliminary plats have been required to contribute a monetary amount on a per unit basis for public safety fees to be placed in the Development Impact Fund earmarked for the purpose of enhancing the City's fire rescue infrastructure. Staff has recommended a (Condition 1.c) that the developer enter into a development agreement for this public safety prior to final plat approval. This dollar amount utilized in \$756 per unit based on January 2021 costs. The City will utilize that base fee and adjust for inflation utilizing the construction cost index for twenty (20) cities, as issued by the current Engineering News Record which is similarly used for calculating infrastructure reimbursements pursuant to Cheyenne Municipal Code subsection 1.16.070.b at the time the plat is scheduled for the Governing Body. Based on January 2021 numbers, the fee for 149 units is \$112,644. When adjusted for 3.78% inflation through June 2021, the estimated total public safety fees is \$127,279.94 (\$112,644 * 03.78%). This number will be finalized in the agreement for the time the plat is scheduled for Governing Body consideration.

The Fire Department also asks that the applicant provide a temporary fire access to the west with their future Engineering Plan Review submittal and subdivision construction. The applicant has provided a document showing the proposed secondary access.

The application **complies with conditions** for this review criterion.

- 10) Remainder lot(s) shall be clearly identified on the preliminary plat and shall not be developed or proposed for development for purposes. Remainder lot(s) shall be noted and described on all plats either graphically or by legal description. (UDC 2.1.2.d.10)**

Remainder lots are not proposed with this plat.

The application **complies** with this review criterion.

11) The layout and design of the final plat is in substantial compliance with the approved preliminary plat considering the number of lots or parcels, street and block layout, and access, and any deviations in the final plat brings the application in further compliance with the Comprehensive Plan. (UDC 2.1.3.d.1)

The Final Plat submitted with the application is substantially similar to the Preliminary Plat submitted.

The application **complies** with this review criterion.

12) The application meets any conditions or modifications of the approved preliminary plat. (UDC 2.1.3.d.2)

Through the review process and application of the Preliminary Plat, Staff has recommended conditions to the plat. These conditions are summarized in the staff recommendation. While this condition does not pose a significant engineering or planning issue, it should be addressed prior to the Governing Body's consideration of the Final Plat.

The application **complies with conditions** for this review criterion.

13) The application meets the purposes, intent, and applicable standards of Article 4. (UDC 2.1.3.d.3)

As a concurrent Preliminary and Final Plat application, this Final Plat review criterion is covered by the equivalent Preliminary Plat review criterion (subsection 3 above).

The application **complies** with this review criterion.

CONFORMANCE WITH APPLICABLE PLANS:

The project is located in an area covered by the following plans:

- PlanCheyenne

Conformance with PlanCheyenne is covered by review criterion 1.

STAFF REVIEW:

Through the review process, comments were received regarding the following issues:

1. Open Space parcel BB and GG are not labeled on the Plat. (resolved by map revisions)
2. A statement in the traffic memo should be provided stating that this development will not require a signal to be installed at the intersection of Sweetgrass and College because the proposed developments traffic generation does not yet warrant one. (resolved by revisions)
3. Wallick Road should be labeled as E Nation Road. (resolved by map revisions)
4. Sirocco Drive appears to be acting as a collector based on the amount of lots feeding the roadway network. Engineering would like to discuss this further. (resolved by map revisions)
5. Curve tables should be shown on the preliminary plat. (resolved by map revisions)
6. Water and Sewer should be shown on the preliminary plat. (resolved by map revisions)

7. Secondary access road for Emergency response must meet IFC Appendix D requirements. An exhibit should be show with the preliminary plat showing the location, grade, and how it meets IFC requirements needs to be provided. (provided)

CONCLUSION:

This application meets all review criteria as filed with conditions.

ALTERNATIVES:

1. Recommend approval of the expedited preliminary plat, forwarding the Final Plat to the Governing Body **(Staff Recommendation)**.
2. Recommend approval of the preliminary plat with conditions and that a final plat addressing the conditions of approval be prepared and presented to the Governing Body.
3. Recommend approval of the preliminary plat as submitted by the applicant and forward the preliminary plat to the Governing Body.
4. Recommend approval of the preliminary plat subject to staff's recommended conditions and forward the preliminary plat to the Governing Body.
5. Recommend denial of the preliminary plat based on findings of denial. The Planning Commission must conclude that the project does not meet all the review criteria. As part of the motion, findings for denial must be stated.
6. Postpone the project until issues identified during the meeting can be resolved.

General Information Regarding Alternatives:

The Planning Commission may modify staff's recommended conditions, delete conditions, add conditions, or decide contrary to staff's recommendation. In the event conditions are modified, the conditions shall relate to applicable review criteria. In the event that the Commission acts contrary to staff's recommendation or modifies conditions of approval, the Commission shall cite specific reasons (based on the review criteria) for approval or denial.

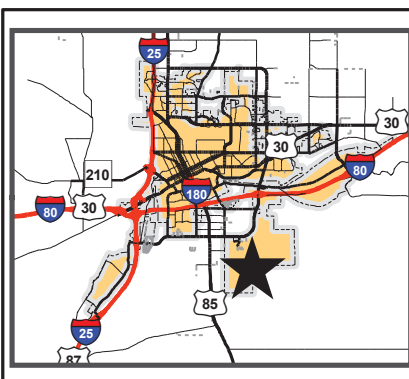

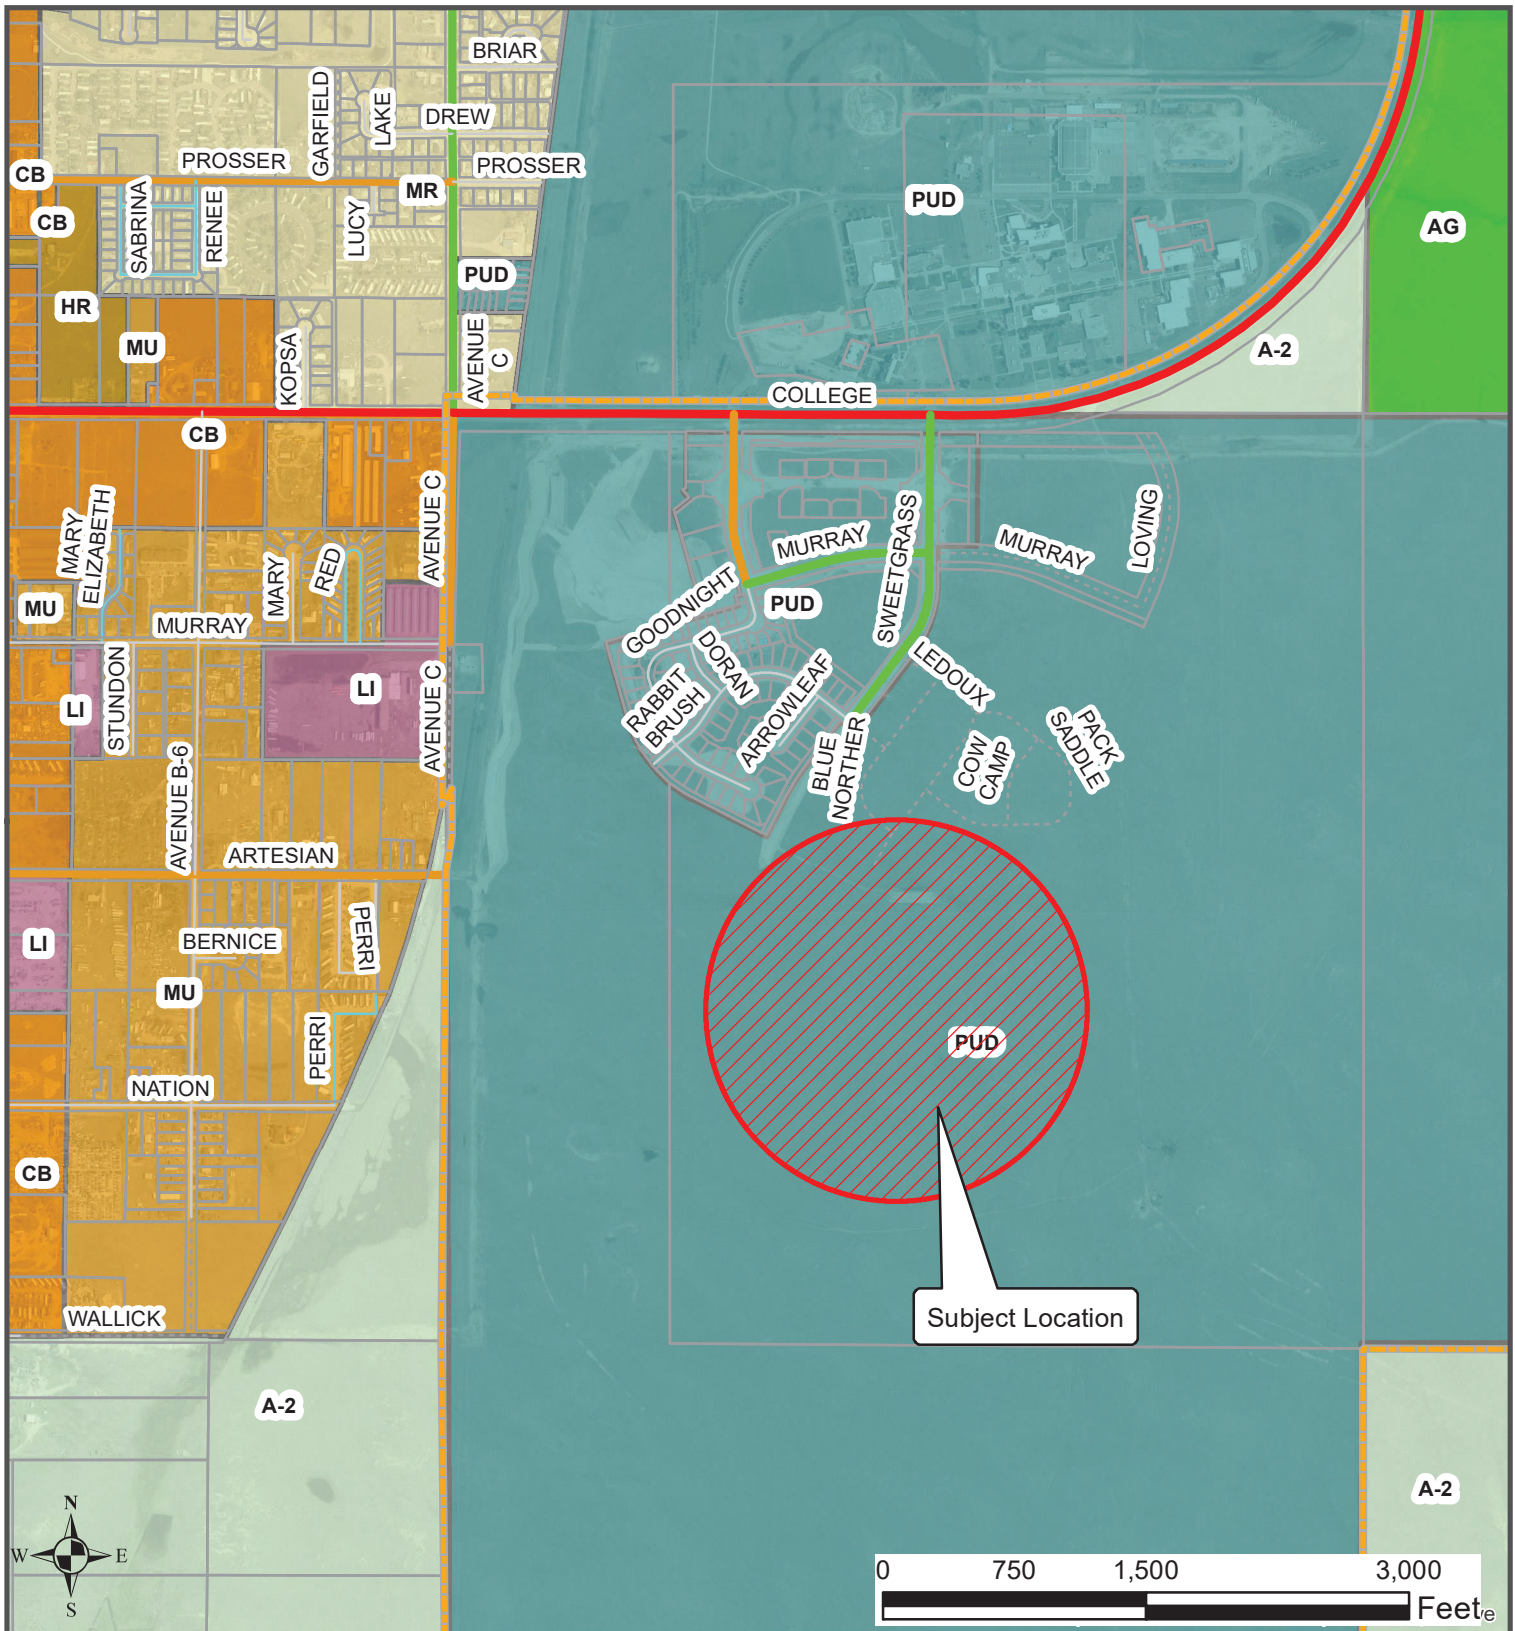

STAFF RECOMMENDATION:

Staff recommends approval of the Preliminary Plat subject to the following conditions:

1. Enter into a development agreement for public safety fees. Public safety fees shall be based on a January 2021 fee of \$756 per unit and shall be adjusted for inflation utilizing the construction cost index for twenty (20) cities, as issued by the current Engineering News Record to the date of final plat filing.
